

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Corey Klein
DOCKET NO.: 12-02935.001-R-1
PARCEL NO.: 16-36-307-030

The parties of record before the Property Tax Appeal Board are Corey Klein, the appellant, and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$56,794
IMPR.: \$215,231
TOTAL: \$272,025

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 3,200 square feet of living area. The dwelling was constructed in 2001. Features of the home include a full basement with finished area, central air conditioning, a fireplace and an attached 441 square foot garage. The property has a 9,221 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables and further argued that comparable #1 was "built at the same time" by the same builder. However, the appellant's grid analysis indicates the subject was built in 2001 and appellant's comparable #1 was built in 1999. Furthermore the appellant questioned why this neighboring comparable has a different neighborhood code and different house type code than the subject.

Based on this evidence, the appellant requested an improvement assessment of \$160,000 or \$50.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$272,025. The subject property has an improvement assessment of \$215,231 or \$67.26 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on six equity comparables located within .42 of a mile of the subject property. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of nine equity comparables to support their respective positions before the Property Tax Appeal Board. The comparables have varying degrees of similarity when compared to the subject property with each of the appellant's comparables being older than the subject. The Board has also given reduced weight to board of review

comparable #1 which is an all-brick dwelling that is newer than the subject having been built in 2007.

The remaining eight comparables submitted by both parties had improvement assessments that ranged from \$151,368 to \$217,006 or from \$48.66 to \$69.42 per square foot of living area. The subject's improvement assessment of \$215,231 or \$67.26 per square foot of living area falls within the range established by the best comparables in this record and is particularly well-supported by board of review comparables #4 and #6 which dwellings are highly similar in age, size and features to the subject property.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
