

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thaddeus Kielch
DOCKET NO.: 12-20147.001-R-1
PARCEL NO.: 15-35-307-066-0000

The parties of record before the Property Tax Appeal Board are Thaddeus Kielch, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$5,250
IMPR.: \$25,009
TOTAL: \$30,259

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story single family dwelling of masonry construction with 2,305 square feet of living area. The dwelling is approximately 60 years old. Features of the property include a full unfinished basement, central air conditioning, one fireplace and a one-car garage. The property has an 8,750 square foot site and is located in Brookfield, Riverside Township, Cook County. The subject is

classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant completed the assessment grid analysis of the appeal identifying four purported comparables. However, the appellant's evidence disclosed that the four comparables have the same address, consecutive parcel numbers (PINs) and copies of the photographs for each comparable depict the same dwelling indicating this building has a pro-rated assessment over the four PINs. This property is described as being improved with a 37 year old two-story dwelling of masonry construction with 2,238 square feet of living area. The property has an unfinished basement, central air conditioning and a fireplace. Photographs of the comparable depict an integral garage. This property has an improvement assessment of \$28,328 or \$12.65 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$7,307.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$30,259. The subject property has an improvement assessment of \$25,009 or \$10.85 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two story dwellings of masonry, stucco or frame and masonry construction that ranged in size from 2,134 to 2,536 square feet of living area. The dwellings ranged in age from 51 to 62 years old. Each home had a full basement with two being finished with recreation rooms, three comparables had central air conditioning, the comparables had one or two fireplaces and a 1-car, 2-car or a 2.5-car garage. The comparables had improvement assessments that ranged from \$25,224 to \$29,725 or from \$10.89 to \$12.73 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and

lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the record contains five comparables submitted by the parties that had varying degrees of similarity to the subject property. These comparables had improvement assessments that ranged from \$10.89 to \$12.73 per square foot of living area. The subject's improvement assessment of \$10.85 per square foot of living area falls below the range established by the comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
