

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michel Castor  
DOCKET NO.: 12-20153.001-R-1  
PARCEL NO.: 10-24-116-104-0000

The parties of record before the Property Tax Appeal Board are Michel Castor, the appellant, by attorney Julie Realmuto in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$692  
**IMPR.:** \$17,590  
**TOTAL:** \$18,282

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) disputing the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of masonry construction with 1,062 square feet of living area. The dwelling is approximately 50 years old. Features of the home include a full unfinished basement and central air conditioning. The property has a 1,026 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is

classified as a class 2-95 individually owned townhome or row house under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with two-story dwellings that had 1,140 and 1,158 square feet of living area. Each dwelling was 58 years old. These properties had improvement assessments ranging from \$13,052 to \$13,202 or from \$11.27 to \$11.58 per square foot of living area. The appellant requested the subject's assessment be reduced to \$12,958.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,282. The subject property has an improvement assessment of \$17,590 or \$16.56 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story dwellings of masonry construction that ranged in size from 1,044 to 1,111 square feet of living area. Each comparable was 53 years old. Each comparable has a full basement with two being finished with recreation rooms and central air conditioning. The comparables had improvement assessments that ranged from \$17,610 to \$19,701 or from \$15.87 to \$18.87 per square foot of living area.

#### Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review as these comparables were most similar to the subject property in

features. These comparables had improvement assessments that ranged from \$15.87 to \$18.87 per square foot of living area. The subject's improvement assessment of \$16.56 per square foot of living area falls within the range established by the best comparables in this record. Less weight was given the appellant's comparables as these dwellings were inferior to the subject in features as none of the comparables had a basement or central air conditioning, dissimilar to the subject dwelling. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
