

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mohamed Abbasi  
DOCKET NO.: 12-20727.001-R-1  
PARCEL NO.: 16-31-219-026-0000

The parties of record before the Property Tax Appeal Board are Mohamed Abbasi, the appellant, by attorney Julie Realmuto in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 4,464  
**IMPR.:** \$ 13,436  
**TOTAL:** \$ 17,900

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a one-story dwelling of masonry construction with 1,209 square feet of living area. The dwelling is approximately 87 years old. Features of the home include a full unfinished basement. The property has a 5,580 square foot site and is located in Berwyn, Berwyn Township, Cook County. The subject is classified as a class 2-03 property

under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with a 1.5-story dwelling and two, 1-story dwellings of masonry construction that ranged in size from 1,369 to 1,477 square feet of living area. The dwellings ranged in age from 83 to 90 years old. Each comparable had a basement with one being finished and one comparable had central air conditioning. The comparables had improvement assessments ranging from \$11,157 to \$13,426 or from \$8.15 to \$9.09 per square foot of living area. The appellant requested an improvement assessment of \$10,603.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,900. The subject property has an improvement assessment of \$13,436 or \$11.11 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with one-story dwellings of masonry construction that ranged in size from 1,007 to 1,248 square feet of living area. The comparables ranged in age from 85 to 87 years old. Each comparable had full basement with one being finished, one comparable had central air conditioning and each comparable had a two-car garage. These properties had improvement assessments ranging from \$13,111 to \$15,352 or from \$11.52 to \$13.77 per square foot of living area.

#### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be board of review comparables #2, #3 and #4 as these comparables were most similar to the subject in size and/or style. These three comparables were also similar to the subject in features with the exception one had a finished basement, one had central air conditioning and each had a two-car garage. These comparables had improvement assessments that ranged from \$11.52 to \$13.77 per square foot of living area. The subject's improvement assessment of \$11.11 per square foot of living area falls below the range established by the best comparables in this record but justified considering the differing features. Less weight was given the appellant's comparables due to differences from the subject dwelling in size and/or style. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
