

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Linda Janicki
DOCKET NO.: 12-20757.001-R-1
PARCEL NO.: 28-09-403-043-0000

The parties of record before the Property Tax Appeal Board are Linda Janicki, the appellant, by attorney Julie Realmuto, Attorney at Law in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$2,415
IMPR.: \$15,971
TOTAL: \$18,386**

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a multi-level single family dwelling of frame construction with 1,092 square feet of living area. The dwelling is approximately 12 years old. Features of the home include a partial basement improved with a formal recreation room and central air conditioning. The property has a 6,900 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified

as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with multi-level dwellings of frame construction that ranged in size from 1,022 to 1,357 square feet of living area. The comparables were 36 and 37 years old with improvement assessments that ranged from \$11,325 to \$15,375 or from \$10.87 to \$11.49 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$12,187.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,386. The subject property has an improvement assessment of \$15,971 or \$14.63 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables that were improved with multi-level dwellings that had either 1,059 or 1,102 square feet of living area and were 10 or 22 years old. Each comparable had a full or partial basement with a recreation room, central air conditioning and a two-car garage. Three of the comparables each had one fireplace. The comparables had improvement assessments ranging from \$17,463 to \$20,116 or from \$16.10 to \$19.00 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review as these comparables were more similar to the subject in age than were

the comparables provided by the appellant. The board of review comparables were also similar to the subject in features with the exception each comparable had a 2-car garage and three comparables each had one fireplace. These comparables had improvement assessments that ranged from \$16.10 to \$19.00 per square foot of living area. The subject's improvement assessment of \$14.63 per square foot of living area falls below the range established by the best comparables in this record but justified when considering differences in features. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
