

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Duckett
DOCKET NO.: 12-20765.001-R-1
PARCEL NO.: 28-04-308-028-0000

The parties of record before the Property Tax Appeal Board are William Duckett, the appellant, by attorney Julie Realmuto in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,535
IMPR.: \$24,672
TOTAL: \$27,207

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story dwelling of frame and masonry construction with 2,504 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a partial basement, one fireplace and a two-car garage. The property has a 7,800 square foot site and is located in Crestwood, Bremen Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with two-story dwellings of frame and

masonry construction that ranged in size from 2,392 to 2,999 square feet of living area. The dwellings ranged in age from 31 to 55 years old. One comparable had a basement, each comparable had central air conditioning and one comparable had a fireplace. The comparables had improvement assessments that ranged from \$18,586 to \$20,869 or from \$6.96 to \$7.77 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$18,930.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$27,207. The subject property has an improvement assessment of \$24,672 or \$9.85 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables of frame and masonry construction that ranged in size from 2,306 to 3,179 square feet of living area. Each comparable has a full or partial unfinished basement, two comparables had central air conditioning, each comparable had one fireplace and each comparable had a 2-car, 2.5-car or a 3-car garage. The comparables had improvement assessments that ranged from \$24,645 to \$31,585 or from \$9.94 to \$10.75 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be board of review comparables #1, #2 and #4, which were most similar to the subject in size, features and age. These comparables had improvement assessments that ranged from \$9.94 to \$10.75 per square foot of living area. The subject's improvement assessment of \$9.85 per square foot of living area falls below the range established by the best comparables in this record. Less weight was given the appellant's comparables due to differences from the subject in age, size and/or features. Less weight was given board of review comparable #3 due to differences from the subject in size. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
