

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alphonse Domek
DOCKET NO.: 12-20774.001-R-1
PARCEL NO.: 28-19-101-012-0000

The parties of record before the Property Tax Appeal Board are Alphonse Domek, the appellant, by attorney Julie Realmuto in Chicago, and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$2,265
IMPR.: \$19,249
TOTAL: \$21,514**

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction with 1,799 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a full basement finished with a recreation room, central air conditioning, one fireplace and a two-car garage. The property has a 2,449 square foot site and is located in Tinley Park, Bremen Township, Cook County. The subject is classified as a class 2-95 townhome or row house under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity

comparables improved with two-story dwellings of frame and masonry construction that ranged in size from 1,768 to 2,220 square feet of living area. The comparables ranged in age from 18 to 41 years old. Each comparable had a basement with three being partially finished, each comparable had central air conditioning and two comparables each had a fireplace. The comparables had improvement assessments ranging from \$15,116 to \$17,316 or from \$7.80 to \$8.58 per square foot of living area. Based on this evidence the appellant requested the subject's improvement assessment be reduced to \$15,417.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,514. The subject property has an improvement assessment of \$19,249 or \$10.70 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables improved with two-story dwellings of frame and masonry construction that had either 1,799 or 1,801 square feet of living area. Each comparable is 18 years old and located along the same street and within the same block as the subject property. Each comparable has the same features as the subject property. The comparables had improvement assessments that ranged from \$19,310 to \$20,040 or from \$10.72 to \$11.14 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review that were most similar to the subject property in location, age, size and features. These comparables had improvement assessments that ranged from \$10.72 to \$11.14 per square foot of living area. The subject's improvement assessment of \$10.70 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
