

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Dockus  
DOCKET NO.: 12-20776.001-R-1  
PARCEL NO.: 28-16-211-018-0000

The parties of record before the Property Tax Appeal Board are Thomas Dockus, the appellant, by attorney Julie Realmuto in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,125  
**IMPR.:** \$20,125  
**TOTAL:** \$24,250

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of frame and masonry construction with 2,876 square feet of living area. The dwelling is approximately 29 years old. Features of the home include a partial unfinished basement, central air conditioning and a two-car attached garage. The property has a 15,000 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant completed Section V - Comparable

Sales/Assessment Grid Analysis on the appeal using three purported comparables. However, appellant's comparables #2 and #3 had the same address, consecutive parcel numbers (PINs), identical improvement descriptions and the photographs for the respective comparables depict the same dwelling indicating these PINs are improved with one dwelling with the improvement assessment allocated between the two parcels. The two comparables submitted by the appellant are improved with two-story dwellings of frame construction that have 2,727 and 2,311 square feet of living area, respectively. One comparable has an unfinished basement, each comparable has central air conditioning and one comparable has a fireplace. These two comparables have improvement assessments of \$12,745 and \$22,520 or \$4.67 and \$9.74 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$14,006.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$24,250. The subject property has an improvement assessment of \$20,125 or \$7.00 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with two-story dwellings of frame or frame and masonry construction that range in size from 2,408 to 2,982 square feet of living area. The dwellings ranged in age from 24 to 37 years old. Three comparables had a partial or full unfinished basement, one comparable had central air conditioning, three comparables each had one fireplace and each comparable had a two-car garage. The comparables had improvement assessments ranging from \$17,184 to \$25,415 or from \$7.11 to \$8.56 per square foot of living area.

#### Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be comparables #2, #3 and #4 submitted by the board of review as these comparables were most similar to the subject in age, size and features. These comparables had improvement assessments that ranged from \$7.59 to \$8.56 per square foot of living area. The subject's improvement assessment of \$7.00 per square foot of living area falls below the range established by the best comparables in this record. Less weight was given appellant's comparable #1 and board of review comparable #1 due to the fact

neither of these comparables had a basement. Less weight was given appellant's remaining comparable, which had an improvement assessment of \$9.74 per square foot of living area, due to differences from the subject in age and size. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
