

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Larry De Boer
DOCKET NO.: 12-20777.001-R-1
PARCEL NO.: 28-21-103-009-0000

The parties of record before the Property Tax Appeal Board are Larry De Boer, the appellant, by attorney Julie Realmuto in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,620
IMPR.: \$5,850
TOTAL: \$10,470

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one-story dwelling of frame construction with 958 square feet of living area. The dwelling is approximately 56 years old. Features of the home include a crawl space foundation. The property has a 13,200 square foot site and is located in Oak Forest, Bremen Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables described as being improved with one-story dwellings

of frame construction that range in size from 840 to 960 square feet of living area.¹ One comparable had a fireplace. The comparables had improvement assessments that ranged from \$4.93 to \$6.16 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$5,748.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$13,175. The subject property has an improvement assessment of \$8,555 or \$8.93 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with one-story dwellings that ranged in size from 896 to 986 square feet of living area. The dwellings ranged in age from 46 to 73 years old. Two comparables had full basements and each comparable had a 1-car, 2-car or a 2.5-car garage. The comparables had improvement assessments that ranged from \$9.76 to \$14.47 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 through #4 as these comparables were most similar to the subject in style, size, age and features. These comparables had improvement assessments that ranged from \$5.97 to \$6.16 per square foot of living area. The subject's improvement assessment of \$8.93 per square foot of living area falls above the range established by the best comparables in this record. Less weight was given appellant's comparable #1 due to its raised ranch design. Less weight was given the board of review comparables due to differences from the subject in age and differences from the subject in features in that each comparable had a garage and two comparables had basements. Based on this record the Board finds the appellant did demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
