

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Todd Thor
DOCKET NO.: 12-20797.001-R-1
PARCEL NO.: 14-18-319-018-0000

The parties of record before the Property Tax Appeal Board are Todd Thor, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,401
IMPR.: \$26,316
TOTAL: \$37,717

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) contesting the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a two-story multi-family dwelling of frame construction with 1,986 square feet of living area. The building is approximately 114 years old. Features of the property include a full unfinished basement and a two-car detached garage. The property has a 3,563 square foot site and is located in Chicago, Lake View Township, Cook County. The subject is classified as a class 2-11 apartment building under

the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables improved with three two-story buildings and one three-story building of frame construction that ranged in size from 2,116 to 2,433 square feet of living area. The buildings ranged in age from 104 to 114 years old. These properties had improvement assessments ranging from \$22,308 to \$26,390 or from \$10.54 to \$10.85 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$21,369.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,717. The subject property has an improvement assessment of \$26,316 or \$13.25 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with a 1.5-story building and three 2-story buildings of frame or frame and masonry construction that ranged in size from 2,004 to 2,300 square feet of living area. The buildings ranged in age from 104 to 119 years old. Each building had a full or partial basement with three being finished with apartments, two comparables had central air conditioning and three comparables each had a two-car garage. Each comparable had the same classification code and neighborhood code as the subject property. These properties had improvement assessments ranging from \$27,355 to \$33,099 or from \$13.65 to \$14.51 per square foot of living area.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this

burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #1 and #2 and board of review comparable #1. These comparables had improvement assessments that ranged from \$10.54 to \$14.50 per square foot of living area. The subject's improvement assessment of \$13.25 per square foot of living area falls within the range established by the best comparables in this record. Less weight was given appellant's comparable #3 due to its three-story style and the fact it had no basement. Less weight was given appellant's comparable #4 and board of review comparables #2 through #4 due to the fact each had a finished basement whereas the subject property had an unfinished basement. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
