

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Gillen
DOCKET NO.: 12-22307.001-R-1
PARCEL NO.: 25-18-206-003-0000

The parties of record before the Property Tax Appeal Board are Mark Gillen, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,182
IMPR.: \$19,405
TOTAL: \$26,587

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco construction with 1,560 square feet of living area. The dwelling is 94 years old. Features of the home include an unfinished basement, a fireplace and a two-car garage. The property has a 8,450 square foot site and is located in Chicago, Lake Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement assessment as the basis of the appeal. The appellant did not contest the subject's land assessment. In support of this argument the appellant submitted information on three equity comparables. The comparables contain 1,830 or 1,867 square feet of living area and are 72 or 115 years old. The appellant failed to disclose the comparables foundation types or whether the comparables have garages.

The appellant's evidence included the 2012 final decision from the Cook County Board of Review disclosing the total assessment for the subject of \$26,587. The subject property has an improvement assessment of \$19,405 or \$12.44 per square foot of living area. The board of review submitted "Notes on Appeal" identifying an incorrect subject property under appeal.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables. The comparables range in size from 1,456 to 1,703 square feet of living area and range in age from 86 to 109 years old. The board of review's information regarding the subject's characteristics was for a property other than the subject.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables were most similar to the subject in location, design, age, foundation type and other features. The Board gave less weight to the appellant's comparables due to their foundation types not being disclosed or whether the comparables have garages. In addition, the appellant's comparables were considerably larger than the subject and the appellant failed to provide proximate location of the comparables. The best comparables had improvement assessments that ranged from \$13.15 to \$14.78 per square foot of living area. The subject's improvement assessment of \$12.44 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.
