

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Laurance Velchek  
DOCKET NO.: 12-24552.001-R-1  
PARCEL NO.: 26-06-403-024-0000

The parties of record before the Property Tax Appeal Board are Laurance Velchek, the appellant, by attorney Timothy E. Moran of Schmidt Salzman & Moran, Ltd in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$1,750  
**IMPR.:** \$10,933  
**TOTAL:** \$12,683

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story, mixed-use building of frame construction. The building is approximately 130 years old and has 2,880 square feet of building area. Features of the building include two apartment units and a full unfinished basement. Based upon photographic evidence submitted by the appellant, the building appears to have at least one commercial unit. The property has a 3,500 square foot site and is located in Chicago, Hyde Park Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables; however, the appellant did not provide any information on the comparables' foundations.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$12,683. The subject property has an improvement assessment of \$10,933 or \$3.80 per square foot of building area. In support of its contention of the correct assessment, the board of review did not provide a grid analysis but submitted property characteristic sheets on four equity comparables.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of seven suggested equity comparables. All of the comparables submitted were mixed-use buildings that had the same neighborhood and classification codes as the subject. The Board finds the appellant's comparables had significantly more building area than the subject; comparables #1 and #2 differed in story height; and the appellant did not provide any information on the comparables' foundations. As a result, the appellant's comparables received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. These comparables were most similar to the subject in building area and were very similar in location, story height, age and foundation. The board of review comparables had improvement assessments that ranged from \$3.96 to \$4.81 per square foot of building area. The subject's improvement assessment of \$3.80 per square foot of building area falls below the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
