

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Kuster
DOCKET NO.: 12-28396.001-R-1
PARCEL NO.: 17-06-401-032-0000

The parties of record before the Property Tax Appeal Board are Kevin Kuster, the appellant, by attorney Timothy E. Moran of Schmidt Salzman & Moran, Ltd in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,812
IMPR.: \$39,812
TOTAL: \$47,624

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family dwelling of masonry construction. The dwelling is an apartment building that is approximately 122 years old and has 3,168 square feet of living area. Features of the building include three apartment units, a concrete slab foundation and a two-car garage. The property has a 3,125 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables; however, the appellant did not provide any information on the comparables' foundations.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$47,624. The subject property has an improvement assessment of \$39,812 or \$12.57 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of nine suggested equity comparables. The appellant's comparables #1 through #3 and #5 differed from the subject in living area and comparables #1, #3 and #5 were three-story buildings, not two-story like the subject. Due to these differences, four of the appellant's comparables received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the appellant's comparable #4 and the comparables submitted by the board of review. These comparables were most similar to the subject in living area and very similar to the subject in location, story height, masonry construction and age. These comparables had improvement assessments that ranged from \$9.84 to \$14.23 per square foot of living area. The subject's improvement assessment of \$12.57 per square foot of living area falls within the range established by the best comparables in this record. The Board considered adjustments and differences in the comparables when compared to the subject. The comparables submitted by the board of review had full or partial basements, while the subject had a concrete slab foundation. The superior attribute of a basement helps to explain why the board of review comparables had higher improvement assessments than the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
