

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: SOT2, LLC
DOCKET NO.: 12-28569.001-R-1
PARCEL NO.: 10-16-404-061-1011

The parties of record before the Property Tax Appeal Board are SOT2, LLC, the appellant, by attorney John P. Brady of Thomas M. Tully & Associates in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$611
IMPR.:	\$3,689
TOTAL:	\$4,300

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a residential condominium unit located at 4949 West Church Street, Unit #203, Skokie, Niles Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on September 17, 2012, for a price of \$43,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$7,666. The subject's assessment reflects a market value of

\$76,660 when applying the 10% level of assessment for class 2 residential properties under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted an explanation outlining the method of assessing the subject condominium unit. The evidence indicates the building's estimated market value was derived from a sale that occurred in September 2008 for a sale price of \$120,000. No adjustments were applied to this sale, and a description of the property was not provided by the board of review. The personal property was estimated to be 2% or \$2,400. The total amount less personal property (\$117,600) was divided by the total ownership percentage (3.55%) to arrive at the building's estimated market value of \$3,312,676. The subject's assessed value was based on its pro rata share of ownership (3.78%) or \$125,219. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in September 2012 for a price of \$43,000. The appellant provided evidence demonstrating the sale had some of the elements of an arm's length transaction. The appellant partially completed Section IV - Recent Sale Data of the appeal disclosing the seller was Bank of America, N.A., the parties to the transaction were not related, and the property had been advertised on the open market with the Multiple Listing Service (MLS). To document the transaction, the appellant submitted a copy of the special warranty deed. The Board finds the purchase price is below the market value reflected by the assessment.

The Board finds the board of review did not challenge the arm's length nature of the transaction and was not able to refute the contention that the subject's purchase price was reflective of market value. The board of review relied on the sale price of a single condominium unit that sold in September 2008 to arrive at the subject's assessed value based on its pro rata share of ownership. The Board finds this sale occurred over three years prior to the assessment date. Furthermore, the board of review made no adjustments to the sale price and did not provide a description of the property. The Board finds the subject's sale price is the better indicator of the subject's market value than the valuation methodology employed by the board of review.

Based on this record, the Board finds a reduction in the subject's assessment commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
