

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Francis Brady
DOCKET NO.: 12-28612.001-R-1
PARCEL NO.: 17-10-401-014-1306

The parties of record before the Property Tax Appeal Board are Francis Brady, the appellant, by attorney Kevin P. Burke of Smith Hemmesch Burke & Kaczynski in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,141
IMPR.: \$44,859
TOTAL: \$46,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a residential condominium unit located at 195 N. Harbor Drive, Unit #3508, Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on May 22, 2012, for a price of \$460,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$49,685. The subject's assessment reflects a market value of

\$496,850 using the when applying the 10% level of assessment for class 2 residential properties under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted an explanation outlining the method of assessing the subject condominium unit. The evidence indicates the building's estimated market value was derived from 41 sales that occurred from February 2010 through December 2012 for sale prices that totaled \$17,719,921.¹ No adjustments were applied to these sales, and descriptions of these properties were not provided by the board of review. The personal property of these sales was estimated to be 2% or \$354,398. The total amount less personal property (\$17,365,523) was divided by the total ownership percentage (7.5672%) to arrive at the building's estimated market value of \$229,484,129. The subject's assessed value was based on its pro rata share of ownership (0.2485%) or \$570,268. Based on this evidence, the board of review requested confirmation of the subject's assessment.

The appellant's attorney submitted a rebuttal brief.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in May 2012 for a price of \$460,000. The appellant provided evidence demonstrating the sale had some of the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the sellers were individuals; the parties to the transaction were not related; the property had been advertised on the open market; and the property sold in settlement of a contract for deed. In further support of the transaction, the appellant submitted a copy of the settlement statement (HUD-1) and the trustee's deed. The Board finds the purchase price is below the market value reflected by the assessment. The Board finds the board of review did not present any evidence to challenge the arm's length nature of the transaction and was not able to refute the contention that the purchase price was reflective of market value. The board of review relied on the sale prices of 41 condominium units to arrive at the subject's assessed value based on its pro rata share of ownership. The board of review selected the subject's May 2012 sale as part of this group of 41 condominium sales. No adjustments were applied to these sales, and descriptions of these properties were not provided by the board of review. The Board finds the subject's sale price is the better indicator of the subject's market value than the valuation methodology employed by the board of review.

Based on this record, the Board finds a reduction in the subject's assessment commensurate with the appellant's request is appropriate.

¹ Included in this group of 41 sales was the May 2012 sale of the subject property for a price of \$460,000.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
