

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: DeJuan Lever
DOCKET NO.: 12-29394.001-R-1
PARCEL NO.: 13-17-302-101-0000

The parties of record before the Property Tax Appeal Board are DeJuan Lever, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,600
IMPR.: \$38,400
TOTAL: \$42,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is a five year-old, two-story dwelling of masonry construction containing 2,692 square feet of living area. Features of the home include a full finished basement, air conditioning and two fireplaces. The property has a 3,600 square foot site and is located in Jefferson Township, Cook County. The property is a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and overvaluation as the bases of the appeal. In support of these arguments, the appellant submitted information on three suggested equity comparables with sales data on each, and on the November 10, 2010

sale of the subject for \$420,000. The equity comparables ranged from 2,604 to 2,760 square feet of living area, or from \$14.11 to \$17.70 per square feet. The sale comparables were the same as the equity comparables, and sold from March 2005 through March 2013 for prices ranging from \$380,000 to \$580,000, or from \$141.16 to \$222.73 per square foot of living area including land. The appellant also submitted two color photographs of the subject and one of his comparables, and a print-out from the Cook County Assessor's website disclosing information about the assessment of one of his comparables.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,000. The subject property has an improvement assessment of \$38,400 or \$14.26 per square foot of living area. The subject's assessment reflects a market value of \$433,437, or \$161.01 per square foot of living area including land, when applying the 2012 three-year median level of assessment for Class 2 property under the Cook County Real Property Assessment Classification Ordinance of 9.69% as determined by the Illinois Department of Revenue. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables and on the November 10, 2010 sale of the subject for \$420,000. The board of review did not submit sale comparables.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2, and #3, and board of review's comparable #3. These comparables had improvement assessments that ranged from \$14.11 to \$17.70 per square foot of living area. The subject's improvement assessment of \$14.26 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and holds that a reduction in the subject's assessment is not justified.

The appellant also contends the market value of the subject property is not accurately reflected in its assessed valuation.

When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be appellant's comparable sales #1, #2, and #3. These comparables sold for prices ranging from \$141.16 to \$222.73 per square foot of living area, including land. The subject's assessment reflects a market value of \$161.01 per square foot of living area including land, which is within the range established by the best comparable sales in this record. Based on this evidence, the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
