

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mavrobros LLC
DOCKET NO.: 12-33281.001-R-1
PARCEL NO.: 16-14-407-047-1003

The parties of record before the Property Tax Appeal Board are Mavrobros LLC, the appellant, by attorney Edwin M. Wittenstein, of Worsak & Vihon in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,198
IMPR.: \$2,902
TOTAL: \$4,100

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a condominium dwelling of brick exterior construction with 1,300 square feet of living area. The subject is one of three condominiums located in a building at 3215 W. Flournoy Street. The building was constructed in 2005. Features of the subject dwelling include central air conditioning and a detached one-car garage. The property has a 3,425 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on December 21, 2010 for a price of \$41,000. The appellant's evidence included a copy of the Multiple Listing Service

(MLS) sheet and Settlement Statement for the subject property. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$8,736. The subject's assessment reflects a market value of \$87,360 or \$67.20 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment, the board of review submitted a 2012 condominium assessment analysis for the subject property, which relied on the sale of one of the subject's condominium units that sold in May 2006 for \$209,000. The board of review's evidence included a brief, which revealed the subject's 2010 sale was a short sale, the property was the subject of a foreclosure proceeding prior to its sale and was a distressed sale. The board of review's evidence also included the PTAX-203 Illinois Real Estate Transfer Declaration for the subject property revealing the property was advertised or sold using a real estate agent.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in December 2010 for a price of \$41,000, even though the sale occurred greater than 12 months prior to the January 1, 2012 assessment date at issue. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor and the property had been advertised on the open market with the Multiple Listing Service. In further support of the transaction the appellant submitted a copy of the Settlement Statement, which disclosed the amount of Broker Fee's paid at closing. The board of review's evidence included the PTAX-203 Illinois Real Estate Transfer Declaration for the subject, which supported the appellant's assertion the subject was advertised. The Board finds the purchase price is below the market value reflected by the assessment. The Board further finds that the board of review's assertion that the subject's sale was not of an arm's length nature is not supported by the evidence in this record. Even though the subject was a short sale and the subject of a foreclosure proceeding, the Board finds the subject was advertised on the real estate market and the transaction was reflective of market value. Finally, the Board finds the board of review submitted no direct evidence to support the assertion that the subject was sold under duress. The Board gave less weight to the board of review's 2012 condominium assessment analysis for the subject property, which relied on the sale of one of the subject's condominium units that sold in May 2006 a date too remote in time from the January 1, 2012 assessment date at issue. Based on this record, the Board finds a reduction in the subject's assessment is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
