

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Bachman  
DOCKET NO.: 12-34181.001-I-1  
PARCEL NO.: 18-25-221-004-0000

The parties of record before the Property Tax Appeal Board are Paul Bachman, the appellant(s), by attorney Daniel R. Fusco, of Rock, Fusco & Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 6,512  
**IMPR.:** \$ 119,622  
**TOTAL:** \$ 126,134

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2012 tax year. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject consists of a two-story building of masonry construction with 7,500 square feet of building area. The building is 50 years old. The property has a 13,025 square foot site, and is located in Bridgeview, Lyons Township, Cook County. The subject is classified as a class 5-93 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant stated that the subject property was listed for sale in April 2011 for a price of \$295,000, but that there have been no offers to purchase the property. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the listing price. The appellant also submitted an income analysis

estimating the subject property had a market value of \$341,948 for tax year 2012. In support of the income analysis, the appellant submitted Schedule E's and a lease.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$126,134. The subject's assessment reflects a market value of \$504,536, or \$67.27 per square foot of building area, including land, when applying the 2012 statutory level of assessment for industrial property under the Cook County Real Property Assessment Classification Ordinance of 25.00%.

In support of its contention of the correct assessment, the board of review submitted information on five comparable sales from the CoStar Comps Service.

### Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant submitted documentation showing the income of the subject property. The Board gives the appellant's argument little weight. In Springfield Marine Bank v. Prop. Tax Appeal Bd., 44 Ill.2d 428 (1970), the Illinois Supreme Court stated:

[I]t is clearly the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value". Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes.

Id. at 431.

As the Court stated, actual income and expenses can be useful when shown that they are reflective of the market. Although the appellant made this argument, the appellant did not demonstrate, through an expert in real estate valuation, that the subject's actual income and expenses are reflective of the market. To

demonstrate or estimate the subject's market value using income and expenses one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives this argument no weight. Thus, the Board finds that a reduction is not warranted based on the appellant's income analysis.

The Board is not persuaded that the subject's list price accurately depicts the subject's market value. "It goes without saying that a contemporaneous sale between parties dealing at arm's length is not only relevant to the question of fair cash market value, (citations) but would be practically conclusive on the issue of whether an assessment was at full value." People ex rel. Korzen v. Belt Ry. Co. of Chicago, 37 Ill.2d 158, 161 (1967). In this appeal, the appellant has not provided any evidence that a sale has actually taken place. Listing the subject for sale does not prove, by a preponderance of the evidence, that the subject is overvalued. For this reason, the Board finds that the subject is not overvalued, and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
