

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Pastell  
DOCKET NO.: 13-00929.001-R-1  
PARCEL NO.: 04-32-400-030

The parties of record before the Property Tax Appeal Board are Paul Pastell, the appellant, by attorney David Lavin of Robert H. Rosenfeld and Associates, LLC, in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 8,625  
**IMPR:** \$ 42,725  
**TOTAL:** \$ 51,350

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one and one-half story frame dwelling that was built in 1982. The dwelling contains 1,404 square feet of living area. Features include an unfinished basement, central air conditioning, one fireplace and a 528

square foot detached garage. The subject property is located in Benton Township, Lake County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming assessment inequity as the basis of the appeal. The subject's land assessment was not challenged. In support of the inequity claim, the appellant submitted an analysis of three suggested comparables located from .16 to .38 of a mile from the subject. The comparables had varying degrees of similarity when compared to the subject. The comparables had improvement assessments ranging from \$21,769 to \$38,070 or from \$17.24 to \$27.04 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$51,350 was disclosed. The subject property has an improvement assessment of \$42,725 or \$30.43 per square foot of living area.

With respect to the appellant's evidence, the board of review argued the comparables are one-story dwellings, unlike the subject's one and one-half story design.

In support of the subject's assessment, the board of review submitted an analysis of four suggested comparables located in close proximity to the subject. The comparables had varying degrees of similarity when compared to the subject. The comparables had improvement assessments ranging from \$34,652 to \$65,065 or from \$26.74 to \$40.54 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

#### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted descriptions and assessment data for six suggested assessment comparables for the Board's consideration. The Board gave less weight to comparables submitted by the appellant due to their dissimilar design when compared to the subject. The Board finds the comparables submitted by the board of review are more similar when compared to the subject in location, design, age, size and features. They have improvement assessments ranging from \$34,652 to \$65,065 or from \$26.74 to \$40.54 per square foot of living area. The subject property has an improvement assessment of \$42,725 or \$30.43 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in this record. Therefore, no reduction in the subject's improvement assessment is warranted.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. Thus, the Board finds that the appellant has not proven by clear and convincing evidence that the subject's assessment was inequitable. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
