

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter Andjelkovich
DOCKET NO.: 13-01250.001-R-2
PARCEL NO.: 15-14-205-017

The parties of record before the Property Tax Appeal Board are Peter Andjelkovich, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld & Associates, LLC in Chicago, and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$84,379
IMPR: \$193,606
TOTAL: \$277,985

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick construction with 4,442 square feet of living area. The dwelling was constructed in 1991. Features of the home include a full unfinished basement, central air conditioning, a fireplace and an attached 713 square foot garage. The property

has a 45,711 square foot site and is located in Lincolnshire, Vernon Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables with improvement assessments ranging from \$120,463 to \$156,339 or from \$31.47 to \$36.93 per square foot of living area. Based on this evidence, the appellant requested a reduced improvement assessment of \$81,495 or \$18.35 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$277,985. The subject property has an improvement assessment of \$193,606 or \$43.59 per square foot of living area.

The board of review submitted a memorandum from Martin P. Paulson, Clerk of the Lake County Board of Review, along with a grid analysis of three comparable sales and applicable property record cards. Paulson asserted that appellant's comparables #1 and #3 are each 10% smaller than the subject dwelling and each of the appellant's three comparables are older than the subject dwelling.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within a radius of .26 of a mile of the subject property. Paulson also contended that the board of review's comparables were within 9% of the living area square footage of the subject and bracket the subject's age, basement and garage size.

Based on this evidence and argument, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code

§1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of seven equity comparables with varying degrees of similarity and dissimilarity to the subject dwelling to support their respective positions before the Property Tax Appeal Board. The comparables had improvement assessments that ranged from \$120,463 to \$202,076 or from \$31.47 to \$49.31 per square foot of living area. The subject's improvement assessment of \$193,606 or \$43.59 per square foot of living area falls within the range established by the comparables in this record and appears to be justified and supported by board of review comparable #2 when giving due consideration to the subject's unfinished basement, but brick exterior construction.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the taxation burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity which appears to exist on the basis of the evidence. For the foregoing reasons, the Board finds that the appellant has not proven by clear and convincing evidence that the subject property is inequitably assessed. Therefore, the Property Tax Appeal Board finds that the subject's assessment as established by the board of review is correct and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
