

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: E. Salgado and E. Villalobos  
DOCKET NO.: 13-01772.001-R-1  
PARCEL NO.: 08-29-209-019

The parties of record before the Property Tax Appeal Board are E. Salgado and E. Villalobos, the appellants, by Jerri K. Bush, Attorney at Law, in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 4,209  
**IMPR:** \$ 17,122  
**TOTAL:** \$ 21,331

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellants timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story brick dwelling that has 1,065 square feet of living area. The dwelling was constructed in 1962. Features include an unfinished basement, central air conditioning and a 528 square foot garage. The

subject has a 5,107 square foot site. The subject property is located in Waukegan Township, Lake County, Illinois.

The appellants submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellants submitted a limited "Property Tax Analysis" of four comparable sales. The analysis was dated March 9, 2014. Neither the name nor the professional credentials of the person(s) who prepared the report was disclosed. The comparables are located from .08 to .19 of a mile from the subject. The comparables had varying degrees of similarity when compared to the subject in design, dwelling size, age and features. The comparables sold from December 2012 to February 2013 for prices ranging from \$26,000 to \$45,000 or from \$27.18 to \$41.21 per square foot of living area including land. The analysis included "Property Equalization Values" (adjustments) to the comparables for sale date, land<sup>1</sup>, age, square footage, basement area and garage area. No evidence or explanation pertaining to the calculation of the adjustment amounts was provided. Based on the Property Equalization Values, the analysis conveys a value estimate for the subject property of \$41,713 or a total assessment of \$13,903. Based on this evidence, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$21,331. The subject's assessment reflects an estimated market value of \$64,173 or \$60.26 per square foot of living area including land when applying the 2013 three-year average median level of assessment for Lake County of 33.24%. In support of the subject's assessment, the board of review submitted an analysis of four comparable sales and a letter addressing the appeal.

The comparable sales submitted by the board of review are located from .08 to .43 of a mile from the subject. The comparables had varying degrees of similarity when compared to the subject in design, dwelling size, age, and features. The comparables sold from February 2012 to June 2014 for prices ranging from \$56,000 to \$89,900 or from \$57.44 to \$86.44 per square foot of living area including land.

With respect to the evidence submitted by the appellants, the board of review argued that the adjustments in the appellants'

grid should be given no weight because they lacked support and there was no evidence they were applied by a qualified individual such as a state licensed appraiser.

Under rebuttal, the appellant argued comparable #1 is newer than the subject and comparable #4 sold in 2014, well past the January 1, 2013 assessment date.

### **Conclusion of Law**

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants failed to meet this burden of proof.

The parties submitted nine comparable sales for the Board's consideration. The Board gave less weight to comparables #2 through #4 submitted by the appellants due to their smaller or larger dwelling sizes when compared to the subject. The Board also gave less weight to comparables #1 and #6 submitted by the board of review. Comparable #1 is considerably newer in age than the subject and comparable #6 sold in 2014, well past the subject's January 1, 2013 assessment date. The Board finds remaining five comparables were more similar when compared to the subject in location, land area, design, age, size and most features. They sold for prices ranging from \$45,000 to \$80,300 or from \$41.21 to \$80.13 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$64,173 or \$60.26 per square foot of living area including land, which falls within the range established by the most similar comparable sales contained in this record. Therefore, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
