

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Henry & Karen Hollomon
DOCKET NO.: 13-01785.001-R-1
PARCEL NO.: 04-28-107-009

The parties of record before the Property Tax Appeal Board are Henry & Karen Hollomon, the appellants, by Jerri K. Bush, Attorney at Law, in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,760
IMPR: \$ 21,233
TOTAL: \$ 23,993

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a tri-level frame dwelling that has 1,160 square feet of above grade living area. The dwelling was constructed in 1993. Features include a finished lower level and a 440 square foot garage. The subject has a 6,120

square foot site. The subject property is located in Zion Township, Lake County, Illinois.

The appellants submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellants submitted a limited "Property Tax Analysis" of five comparable sales dated March 5, 2014. Neither the name nor the professional credentials of the person(s) who prepared the report was disclosed. The comparables are located from .16 to .40 of a mile from the subject property. The comparables had varying degrees of similarity when compared to the subject in design, size, age and features. The comparables sold from July 2012 to September 2013 for prices ranging from \$42,000 to \$51,000 or from \$35.23 to \$46.20 per square foot of living area including land. The analysis included "Property Equalization Values" (adjustments) to the comparables for sale date, land¹, age, square footage, lower level area and garage area. Based on the Property Equalization Values, the analysis conveys a value estimate for the subject property of \$48,485 or a total assessment of \$16,160. No explanation pertaining to the calculation of the adjustment amounts was provided. Based on this evidence, the appellants requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$23,993. The subject's assessment reflects an estimated market value of \$72,181 or \$62.23 per square foot of living area including land when applying the 2013 three-year average median level of assessment for Lake County of 33.24%. In support of the subject's assessment, the board of review submitted an analysis of four comparable sales and a letter addressing the appeal.

The comparable sales submitted by the board of review are located from .05 of a mile to 1.29 miles from the subject. The comparables had varying degrees of similarity when compared to the subject in land area, design, age, size and features. The comparables sold from June 2011 to January 2014 for prices ranging from \$77,000 to \$112,009 or from \$66.84 to \$96.23 square foot of living area including land.

With respect to the evidence submitted by the appellants, the board of review argued that the adjustments in the appellants' grid should be given no weight because they lacked support and

¹ The appellants failed to disclose the land sizes for the subject and comparables.

there was no evidence they were applied by a qualified individual such as a licensed appraiser.

Under rebuttal, the appellant argued board of review comparables #3 and #4 sold in 2011 and 2014, respectfully, less indicative of market value as of the subject's January 1, 2013 assessment date.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants failed to meet this burden of proof.

The parties submitted nine comparable sales for the Board's consideration. The Board gave less weight to comparables #3 and #4 submitted by the board of review. These properties sold in 2011 and 2014, which are less reliable indicators of market value in relation to the subject's January 1, 2013 assessment date. Additionally, comparable #3 is located over one mile from the subject. The Board finds the remaining seven comparables were more similar when compared to the subject in location, land area, age, size, design and most features. They sold for prices ranging from \$42,000 to \$80,000 or from \$35.23 to \$78.74 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$72,181 or \$62.23 per square foot of living area including land, which falls within the range of the most similar comparable sales contained in the record. Therefore, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
