

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: THR Property Illinois, L.P.
DOCKET NO.: 13-02179.001-R-1
PARCEL NO.: 14-03-401-014

The parties of record before the Property Tax Appeal Board are THR Property Illinois, L.P., the appellant, by attorney Robert M. Sarnoff of Sarnoff & Baccash, in Chicago; and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Kane County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$21,045
IMPR.: \$55,568
TOTAL: \$76,613

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story frame and masonry dwelling that has 3,368 square feet of living area. The dwelling was constructed in 1989. Features include an unfinished basement, central air conditioning, a fireplace and a

976 square foot attached garage. The subject property has a .91 of an acre site. The subject property is located in Sugar Grove Township, Kane County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information pertaining to the sale of the subject property. The appellant's appeal petition indicated the subject property sold in July 2013 for \$230,000 or \$68.29 per square foot of living area including land. The appellant submitted the settlement statement associated with the sale of the subject property. The appeal petition depicts the subject property was listed for sale in the open market with a Realtor for unknown period of time and the parties to the transaction were un-related. The appellant also submitted a sales contract indicating the subject property sold in "As-Is condition" Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$107,874. The subject's assessment reflects an estimated market value of \$323,849 or \$96.16 per square foot of living area including land when applying the 2013 three-year average median level of assessment for Kane County of 33.31%.

In support of the subject's assessment, the board of review submitted a letter addressing the appeal and five comparable sales. This evidence was prepared by the Sugar Grove Township Assessor. The comparable sales had varying degrees of similarity and dissimilarity when compared to the subject. The comparables were not located in the subject's subdivision. The comparables sold from February 2011 to August 2012 for prices ranging from \$295,000 to \$365,000 or from \$89.94 to \$119.99 per square foot of living area including land.

The assessor argued the subject sale was a "REO by a government Agency." The assessor claimed subject was a "duress sale." Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86

Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value contained in this record is the sale of the subject property in July 2013 for \$230,000. The Board finds the subject's sale meets the fundamental elements of an arm's-length transaction. The buyer and seller were not related; the subject property was exposed to the open market; and there is no direct evidence the parties to the transaction were under duress or compelled to buy or sell¹. The Illinois Supreme Court has defined fair cash value as what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d. 428, (1970). A contemporaneous sale of two parties dealing at arm's-length is not only relevant to the question of fair cash value but is practically conclusive on the issue of whether an assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). Furthermore, the sale of a property during the tax year in question is a relevant factor in considering the validity of the assessment. Rosewell v. 2626 Lakeview Limited Partnership, 120 Ill.App.3d 369, 375 (1st Dist. 1983). The subject's assessment reflects an estimated market value of \$187,661, which is considerably more than its recent sale price. The board of review did not present any credible evidence that would demonstrate the subject's sale was not an arm's-length transaction. The Board further finds the fact the subject was a REO sale does not demonstrate the subject's sale was not an arm's-length transaction.

The Board further finds the comparable sales submitted by the board of review do not overcome the subject's arm's-length sale price as provided by the aforementioned controlling Illinois case law. Additionally, two sales submitted by the board of review occurred in 2011, which are dated and less reliable indicators of market value as of the subject's January 1, 2013 assessment date.

Based on this analysis, the Board finds the subject property is overvalued and a reduction in its assessment is justified. Since fair market value has been established, Kane County's 2013

¹ The township assessor opined subject property sold under duress, but submitted no independent evidence to support this claim.
