

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George H. Stefely  
DOCKET NO.: 13-02324.001-R-1  
PARCEL NO.: 03-13-177-006

The parties of record before the Property Tax Appeal Board are George H. Stefely, the appellant, by Jerri K. Bush, Attorney at Law, in Chicago, and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Kane County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$8,252  
IMPR.: \$5,747  
TOTAL: \$13,999**

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story single-family dwelling of frame construction with 768 square feet of living area. The dwelling was constructed in 1955. Features of the home include a crawl-space foundation, central air conditioning, a fireplace and a detached 360 square foot garage. The property has a 6,420 square foot site and is located in Carpentersville, Dundee Township, Kane County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on February 22, 2013 for a price of \$42,000. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor, the property had been advertised on the open market with the Multiple Listing Service and it had been on the market for 23 days. In further support of the transaction the appellant submitted a copy of the Settlement Statement reiterating the purchase date and price; a copy of the Multiple Listing Service data sheet reporting the original listing date of January 23, 2013 with an asking price of \$42,000 and reporting the dwelling was "sold as is" although the dwelling was recently rehabbed with fresh paint, new carpet throughout and the furnace and air conditioning condenser were recently replaced; and a copy of the Listing & Property History Report. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,701. The subject's assessment reflects a market value of \$68,151 or \$88.74 per square foot of living area, land included, when using the 2013 three year average median level of assessment for Kane County of 33.31% as determined by the Illinois Department of Revenue.

In response to the appeal, the board of review relied upon data gathered by the Dundee Township Assessor's Office. In support of the correct assessment, the township assessor prepared a grid analysis of three comparable sales located in the same neighborhood code as the subject property. The comparables consist of one-story frame dwellings that were built in 1955 or 1956. The homes contain 768 square feet of living area. One comparable has central air conditioning and each has a garage of 308 or 400 square feet of building area. The properties sold between September 2012 and July 2013 for prices ranging from \$72,000 to \$118,750 or from \$93.75 to \$154.62 per square foot of living area, including land.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

**Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. Except in counties with more than 200,000 inhabitants that classify property, property is to be valued at 33 1/3% of fair cash value. (35 ILCS 200/9-145(a)). Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). Furthermore, the sale of a property during the tax year in question is a relevant factor in considering the validity of the assessment. Rosewell v. 2626 Lakeview Limited Partnership, 120 Ill.App.3d 369, 375 (1<sup>st</sup> Dist. 1983).

When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property in February 2013 for a price of \$42,000. The appellant provided evidence demonstrating the sale had the elements of an arm's length transaction. The evidence disclosed the parties to the transaction were not related, the property was sold using a Realtor and the property had been advertised on the open market for 23 days. In further support of the transaction the appellant submitted a copy of the MLS listing sheet for the subject property, a copy of the Settlement Statement and a copy of the Listing & Property History Report. The Property Tax Appeal Board further finds the purchase price of \$42,000 is below the market value reflected by the assessment of \$68,151.

The board of review submitted information on three comparable sales which were nearly identical to the subject property. The comparables sold between September 2012 and July 2013 for prices ranging from \$72,000 to \$118,750 or from \$93.75 to \$154.62 per square foot of living area, including land. The Property Tax Appeal Board finds these sales do not refute the appellant's evidence that the subject property sold after being exposed on the open market for 23 days in a transaction involving parties that were not related. Based on this record the Board finds the purchase price is the best indication of market value as of January 1, 2013, and reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
