

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Timothy Ramseyer & Patrick Koziol
DOCKET NO.: 13-02362.001-R-1
PARCEL NO.: 06-24-254-012

The parties of record before the Property Tax Appeal Board are Timothy Ramseyer & Patrick Koziol, the appellants, by Jerri K. Bush, Attorney at Law, in Chicago, and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Kane County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,729
IMPR: \$8,936
TOTAL: \$15,665

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame construction with 1,429 square feet of living area. The dwelling was constructed in 1914. Features of the home include a full unfinished basement. The property has a 6,534 square foot site and is located in Elgin, Elgin Township, Kane County.

The appellants' appeal is based on overvaluation. In support of this argument the appellants submitted evidence disclosing the subject property was purchased on February 22, 2013 for a price of \$47,000. The appellants completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related, the property was sold using a Realtor, the property

had been advertised on the open market with the Multiple Listing Service and it was on the market for 241 days. In further support of the transaction the appellants submitted a copy of the Settlement Statement reiterating the purchase price and date; a copy of the Multiple Listing Service data sheet depicting that the property has "good bones, but this house needs work including new water lines" and was sold for cash as a short sale; and a copy of the Listing & Property History Report depicting the listing date of February 25, 2012 with an original asking price of \$39,900, an increase to \$60,000 on August 18, 2012 and a reduction to an asking price of \$47,000 on September 11, 2012. Based on this evidence, the appellants requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$31,434. The subject's assessment reflects a market value of \$94,368 or \$66.04 per square foot of living area, land included, when using the 2013 three year average median level of assessment for Kane County of 33.31% as determined by the Illinois Department of Revenue.

In response to the appeal, the board of review submitted a statement from the Elgin Township Assessor's Office asserting the subject property was purchased as a short sale for cash.

In support of its contention of the correct assessment the board of review through the township assessor submitted information on four comparable sales. The comparables were improved with one-story frame dwellings that were built in 1915 or 1930. The homes range in size from 1,040 to 1,152 square feet of living area and feature full basements, one of which has finished area. One comparable has a fireplace. Each comparable has a garage ranging in size from 192 to 324 square feet of building area. The comparables sold from July 2010 to December 2011 for prices ranging from \$70,000 to \$133,000 or from \$67 to \$107 per square foot of living area, including land, rounded.

Based on this evidence and argument, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants met this burden of proof and a reduction in the subject's assessment is warranted.

Except in counties with more than 200,000 inhabitants that classify property, property is to be valued at 33 1/3% of fair

cash value. (35 ILCS 200/9-145(a)). Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967). Furthermore, the sale of a property during the tax year in question is a relevant factor in considering the validity of the assessment. Rosewell v. 2626 Lakeview Limited Partnership, 120 Ill.App.3d 369, 375 (1st Dist. 1983).

The Board finds the best evidence of market value to be the purchase of the subject property in February 2013 for a price of \$47,000. The appellants provided evidence demonstrating the sale had the elements of an arm's length transaction. The evidence disclosed the parties to the transaction were not related, the property was sold using a Realtor and the property had been advertised on the open market for 241 days. In further support of the transaction the appellants submitted a copy of the MLS listing sheet for the subject property, a copy of the Settlement Statement and a copy of the Listing & Property History Report. Additionally, the board of review reported the subject's sale as a short sale for cash. The Property Tax Appeal Board further finds the purchase price of \$47,000 is less than the subject's estimated market value as reflected by its assessment of \$94,368.

The board of review submitted information on four comparable sales with varying degrees of similarity to the subject property. The Board finds board of review comparable #3 and #4 sold in 2010 which is dated and remote in time to the assessment date at issue of January 1, 2013 and thus less likely to be indicative of the subject's estimated market value as of the assessment date. Moreover, the Board finds the sales presented by the board of review do not refute the appellants' evidence that the subject property sold after being exposed on the open market for 241 days in a transaction involving parties that were not related. Based on this record the Board finds the purchase price in February 2013 is the best indication of market value as of January 1, 2013, and reduction in the subject's assessment commensurate with the appellants' request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
