

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James & Kim Truog
DOCKET NO.: 13-02401.001-R-1
PARCEL NO.: 02-09-426-007

The parties of record before the Property Tax Appeal Board are James & Kim Truog, the appellants, by Jerri K. Bush, Attorney at Law, in Chicago, and the Kane County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Kane County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,005
IMPR.: \$66,986
TOTAL: \$90,991

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the Kane County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction with 3,783 square feet of living area. The dwelling was constructed in 2000. Features of the home include a full basement, central air conditioning, a fireplace and an attached 379 square foot garage. The property has a 1.213-acre site and is located in Huntley, Rutland Township, Kane County.

The appellants' appeal is based on overvaluation. In support of this argument the appellants submitted evidence disclosing the subject property was purchased on August 23, 2012 for a price of \$273,000. The appellants completed Section IV - Recent Sale Data of the appeal petition disclosing the parties to the transaction were not related, the property was sold using a Realtor and the property had been advertised on the open market with the Multiple Listing Service for 142 days. In further support of the transaction the appellants submitted a copy of the Settlement Statement reiterating the purchase price and date; a copy of the Multiple Listing Service data sheet depicting that the property was an REO/Lender Owned, Pre-Foreclosure with conventional financing; and a copy of the Listing & Property History Report depicting a listing date of February 22, 2012 with an asking price of \$330,000 followed by four price reductions to a final asking price of \$258,000 as of June 29, 2012 before being sold for a higher price of \$273,000. The listing data sheet included the remark, "Banks wants sold . . . PRICE DROPPED to rock bottom." Based on this evidence, the appellants requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$109,570. The subject's assessment reflects a market value of \$328,940 or \$86.95 per square foot of living area, land included, when using the 2013 three year average median level of assessment for Kane County of 33.31% as determined by the Illinois Department of Revenue.

In response to the appeal and in support of its contention of the correct assessment, the board of review submitted data gathered by the Rutland Township. Documentation included the property record card of the subject, the PTAX-203 Illinois Real Estate Transfer Declaration related to the sale transaction and a spreadsheet itemizing four sales among a total of 11 properties consisting of two-story dwellings. The four sales consist of parcels ranging in size from .91 of an acre to 4-acres improved with dwellings that were built between 1997 and 2003. The homes range in size from 2,389 to 2,877 per square foot of living area. These four comparables sold between October 2010 and October 2012 for prices ranging from \$250,000 to \$400,000 or from \$86.90 to \$143.68 per square foot of living area, including land.

Based on this evidence and argument, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellants contend the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellants met this burden of proof and a reduction in the subject's assessment is warranted.

Except in counties with more than 200,000 inhabitants that classify property, property is to be valued at 33 1/3% of fair cash value. (35 ILCS 200/9-145(a)). Fair cash value is defined in the Property Tax Code as "[t]he amount for which a property can be sold in the due course of business and trade, not under duress, between a willing buyer and a willing seller." (35 ILCS 200/1-50). The Supreme Court of Illinois has construed "fair cash value" to mean what the property would bring at a voluntary sale where the owner is ready, willing, and able to sell but not compelled to do so, and the buyer is ready, willing, and able to buy but not forced to do so. Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970). A contemporaneous sale between two parties dealing at arm's length is not only relevant to the question of fair cash value but practically conclusive on the issue on whether the assessment is reflective of market value. Korzen v. Belt Railway Co. of Chicago, 37 Ill.2d 158 (1967).

The Property Tax Appeal Board finds the best evidence of market value to be the purchase of the subject property in August 2012 for a price of \$273,000. The appellants provided evidence demonstrating the sale had the elements of an arm's length transaction. The evidence disclosed the parties to the transaction were not related, the property was sold using a Realtor and there was no evidence of duress to buy or sell. In further support of the transaction the appellants submitted a copy of the Settlement Statement, a copy of the MLS listing sheet for the subject property which depicted that the property had been advertised on the open market for 142 days and a copy of the Listing & Property History Report which depicted a final asking price of \$258,000 with the property finally selling for a higher price of \$273,000. The Property Tax Appeal Board further

finds the purchase price of \$273,000 is less than the subject's estimated market value as reflected by its assessment of \$328,940.

The board of review submitted information on four comparable sales of dwellings with varying degrees of similarity to the subject property. Each of the comparables were substantially smaller than the subject dwelling. One of the comparables had a much larger land area than the subject property. Three of the comparables sold in 2010 and 2011, dates more remote in time to the valuation date at issue of January 1, 2013, which would be less likely to be indicative of the subject's estimated market value as of the assessment date. More importantly, the Property Tax Appeal Board finds the sales presented by the board of review do not refute the appellants' evidence that the subject property sold after being exposed on the open market for 142 days in a transaction involving parties that were not related. Based on this record the Board finds the purchase price in August 2012 is the best indication of market value as of January 1, 2013, and a reduction in the subject's assessment commensurate with the appellants' request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
