

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Nalbono
DOCKET NO.: 13-02656.001-R-1
PARCEL NO.: 03-17-308-012

The parties of record before the Property Tax Appeal Board are George Nalbono, the appellant, by attorney Scott Shudnow of Shudnow & Shudnow, Ltd. in Chicago, and the DuPage County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the DuPage County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,280
IMPR.: \$46,760
TOTAL: \$75,040

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a split-level dwelling of brick and frame construction with 1,348 square feet of above-grade living area. The dwelling was constructed in 1979. Features of the home include a partial walkout-style lower level with finished area and a sub-basement, central air conditioning, a fireplace and an attached two-car garage. The property has an

8,450 square foot site and is located in Addison, Addison Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$175,000 as of January 1, 2011. The appraiser analyzed three sales of split-level dwellings located from 1.75 to 2.76-miles from the subject property. The homes range in size from 1,061 to 1,102 square feet of above-grade living area. None of the comparables have either a fireplace or a sub-basement like the subject property. The sales occurred in November 2010 and October 2011 for prices ranging from \$141.38 to \$145.19 per square foot of living area, including land. After making adjustments to the comparables for differences from the subject, the appraiser set forth adjusted sales prices for these comparables ranging from \$173,850 to \$175,300 or from \$159.07 to \$163.99 per square foot of living area, including land. Based on this analysis, the appraiser opined a market value for the subject of \$175,000 or \$129.82 per square foot of living area, including land.

Based on this evidence, the appellant requested an assessment reduction reflective of the appraised value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$75,040. The subject's assessment reflects a market value of \$225,210 or \$167.07 per square foot of living area, land included, when using the 2013 three year average median level of assessment for DuPage County of 33.32% as determined by the Illinois Department of Revenue.

As to the appellant's appraisal, the board of review noted that the date of valuation was January 1, 2011 rather than the assessment date at issue of January 1, 2013. Moreover, as to the appraisal's comparable sales, the board of review through the township assessor noted that none of the properties were located in the subject's subdivision as defined by the assessor's neighborhood code and none of the comparables has either a fireplace or a sub-basement like the subject dwelling.

In support of its contention of the correct assessment the board of review through the township assessor submitted information on six comparables sales located in the immediate vicinity of the subject property as depicted on a map attached as part of the evidence. These comparable split-level dwellings of frame or frame and brick exterior construction were built between 1979

and 1986. The homes range in size from 1,258 to 1,912 square feet of above-grade living area and each has both a lower level, five of which include finished area, and a sub-basement. These comparables sold between March 2011 and August 2013 for prices ranging from \$230,000 to \$347,000 or from \$169.98 to \$203.51 per square foot of living area, including land.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the appellant's appraisal report is not a credible or reliable indicator of the subject's market value as of the assessment date at issue of January 1, 2013. In addition, the sales that were considered to arrive at the value conclusion were 1.75-miles and more away from the subject dwelling and none of the comparables has the additional sub-basement and fireplace, both of which are present on the subject property. Moreover, the appraiser made no adjustment for location differences and made minimal adjustments for the other lacking amenities of a fireplace and sub-basement.

The Board has given reduced weight to board of review comparables #1 and #5 as each of these dwellings was substantially larger than the subject dwelling.

The Board finds the best evidence of market value to be board of review comparable sales #2, #3, #4 and #6. These four comparables sold between March 2011 and August 2013 for prices ranging from \$230,000 and \$290,000 or from \$182.83 to \$203.51 per square foot of living area, including land. The subject's assessment reflects a market value of \$225,210 or \$167.07 per square foot of living area, including land, which is below the range established by the best comparable sales in the record in terms of overall value and also on a per-square-foot basis. The

subject's estimated market value does not appear to be excessive when compared to these four most similar comparable sales that bracket the assessment date of January 1, 2013. Based on this evidence the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
