

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sandip Chandarana  
DOCKET NO.: 13-02785.001-R-1  
PARCEL NO.: 06-33-202-033

The parties of record before the Property Tax Appeal Board are Sandip Chandarana, the appellant, by attorney David Lavin of Robert H. Rosenfeld and Associates, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$143,340  
**IMPR.:** \$297,820  
**TOTAL:** \$441,160

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) disputing the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story single family dwelling of brick and frame construction with 5,180 square feet of living area. The dwelling was constructed in 1983. Features of the home include a finished basement, central air conditioning, one fireplace and a three-car garage with 918 square feet of building area. The property has a 27,828 square

foot site and is located in Oak Brook, York Township, DuPage County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales. The appellant described the comparables as being improved with one two-story dwelling and two three-story dwellings of brick and frame construction that ranged in size from 4,250 to 7,039 square feet of living area. The dwellings ranged in age from 25 to 31 years old. Each comparable had a basement with two being finished, central air conditioning, two to four fireplaces and a three-car garage. The sales occurred from March 2012 to November 2012 for prices ranging from \$1,025,000 to \$1,275,000 or from \$181.13 to \$241.18 per square foot of living area, including land. The appellant requested the subject's assessment be reduced to \$355,995 to reflect a market value of \$207.33 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$441,180. The subject's assessment reflects a market value of \$1,324,070 or \$255.61 per square foot of living area, land included, when using the 2013 three year average median level of assessment for DuPage County of 33.32% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted a statement from a deputy township assessor, a grid analysis of the appellant's comparables and six comparable sales selected by the assessor and copies of the property record cards associated with the comparables submitted by the parties. The information provided by the deputy assessor indicated that appellant's comparable sale #2 sold for a price of \$1,525,000 or \$216.65 per square foot of living area, including land, which differed from the appellant's reported price of \$1,275,000. The evidence also disclosed that appellant's comparable #3 was located in another subdivision than the subject property.

The six comparables provided by the assessor were improved with three two-story dwellings and three part one-story and part two-story dwellings that ranged in size from 4,031 to 5,670 square feet of living area and were constructed from 1981 to 1988. Each comparable has a basement with three being finished, central air conditioning, one to four fireplaces and a three-car or a four-car garage ranging in size from 759 to 1,068 square

feet of building area. The sales occurred from February 2012 to February 2013 for prices ranging from \$1,175,000 to \$1,825,000 or from \$253.76 to \$321.87 per square foot of living area, including land.

The board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be board of review sales #3 through #6. These comparables were similar to the subject in location, age and size. These properties sold from February 2012 to February 2013 for prices ranging from \$1,400,000 to \$1,825,000 or from \$253.76 to \$321.87 per square foot of living area, including land. The subject's assessment reflects a market value of \$1,324,070 or \$255.61 per square foot of living area, including land, which is below the overall price range but within the range established by the best comparable sales in this record on a square foot basis. Less weight was given the appellant's comparables #1 through #3 due to differences from the subject in size and as well as location with respect to comparable #3. Less weight was given board of review sales #1 and #2 due to differences from the subject in size. Based on this evidence the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
