

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tony Rendina
DOCKET NO.: 13-03973.001-R-1
PARCEL NO.: 06-33-306-001

The parties of record before the Property Tax Appeal Board are Tony Rendina, the appellant, by attorney Richard J. Caldarazzo of Mar Cal Law, P.C., in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 73,580
IMPR.: \$ 97,440
TOTAL: \$171,020

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick, masonry or stone exterior construction that has 3,107 square feet of living area. The dwelling was constructed in 1984. Features include an unfinished basement, central air conditioning, a fireplace and a 625 square foot attached brick garage. The subject property is located in York Township, DuPage County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted limited information for three assessment comparables located in close proximity to the subject. The comparables consist of two-story dwellings of brick, masonry or stone exterior construction that were built from 1979 to 1986. The comparables have basements and three-car attached brick garages. The appellant did not disclose whether the comparables had finish basement area,

central air conditioning, fireplaces or any other feature. The dwellings range in size from 3,508 to 3,993 square feet of living area and have improvement assessments ranging from \$78,010 to \$89,980 or from \$22.24 to \$24.29 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$171,020. The subject property has an improvement assessment of \$97,440 or \$31.36 per square foot of living area. In support of the subject's assessment, the board of review submitted an equity analysis of six assessment comparables located in same neighborhood as the subject as defined by the local assessor. The comparables consist of two-story dwellings of brick, masonry or stone exterior construction that were built from 1979 to 1986. The comparables have basements and two-car attached brick garages. The analysis did not disclose whether the comparables had finish basement area, central air conditioning, fireplaces or any other feature. The dwellings range in size from 2,936 to 3,220 square feet of living area and have improvement assessments ranging from \$125,280 to \$157,350 or from \$42.62 to \$49.36 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The record contains nine assessment comparables for the Board's consideration. The Board gave less weight to the comparables submitted by the appellant because they are larger in dwelling size when compared to the subject and are less similar in dwelling size than the comparables submitted by the board of review. The Board finds the comparables submitted by the board of review were most similar when compared to the subject in location, design, age, dwelling size and the limited features disclosed. These comparables have improvement assessments ranging from \$125,280 to \$157,350 or from \$42.62 to \$49.36 per square foot of living area. The subject property has an improvement assessment of \$97,440 or \$31.36 per square foot of living area, which falls below the range established by the most similar assessment comparables contained in the record. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is low, but supported by the evidence in the record. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
