

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mathew Edukutharayil
DOCKET NO.: 13-04122.001-R-1
PARCEL NO.: 02-04-103-008

The parties of record before the Property Tax Appeal Board are Mathew Edukutharayil, the appellant, by attorney Richard J. Caldarazzo of Mar Cal Law, P.C., in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 35,720
IMPR.: \$126,690
TOTAL: \$162,410

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction that has 3,782 square feet of living area. The dwelling was constructed in 1996. Features include a full unfinished basement, central air conditioning, a fireplace and a three-car attached garage. The subject property is located in Bloomingdale Township, DuPage County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted information for three assessment comparables located in close proximity to the subject. The comparables consist of two-story dwellings of masonry exterior construction that were built in 1995 or 1996. The comparables have full unfinished basements, central air conditioning, a fireplace and three-car attached garages. The dwellings range in size from 3,594 to 4,448 square feet of living area and have improvement assessments ranging from \$113,150 to \$138,420 or

from \$30.58 to \$31.48 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$162,410. The subject property has an improvement assessment of \$126,690 or \$33.50 per square foot of living area. In support of the subject's assessment, the board of review submitted an equity analysis of four assessment comparables located in close proximity to the subject. The comparables are improved with two-story dwellings of "mixed" exterior construction that were built in 1997 or 1998. Two comparables have full basements that are 80% finished and two comparables have full unfinished basements. The comparables have central air conditioning, one or two fireplaces and two or three-car attached garages. The dwellings range in size from 3,132 to 4,202 square feet of living area and have improvement assessments ranging from \$113,980 to \$142,060 or from \$33.81 to \$36.39 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof and no reduction in the subject's assessment is warranted.

The record contains seven assessment comparables for the Board's consideration. The Board gave less weight to comparables #1 and #2 submitted by the appellant due to their larger dwelling size when compared to the subject. The Board also gave less weight to comparables #1 and #3 submitted by the board of review due to their smaller or larger dwelling size when compared to the subject. Moreover, these comparables have finished basements, superior to the subject. The Board finds the three remaining comparables are more similar when compared to the subject in location, design, age, dwelling size and features. These comparables have improvement assessments ranging from \$113,150 to \$125,100 or from \$31.48 to \$34.01 per square foot of living area. The subject property has an improvement assessment of \$126,690 or \$33.50 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record on a per square foot basis. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
