

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: 937-39 W. Irving Corp.
DOCKET NO.: 13-23457.001-R-1
PARCEL NO.: 14-20-202-005-0000

The parties of record before the Property Tax Appeal Board are 937-39 W. Irving Corp., the appellant(s), by attorney Brian P. Liston, of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$24,297
IMPR.: \$69,327
TOTAL: \$93,624

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board (Board) finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 5,282 square foot parcel of land improved with a 95-year old, two-story, masonry, multi-family dwelling containing 6,228 square feet of living area. The property is located in Lake View Township, Cook County and is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted sales information on six comparables. The appellant also submitted evidence of the subject's actual income and expenses.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$93,624. The subject's total assessment reflects a market value of

\$936,240 or \$150.33 per square foot of living area using the Cook County Real Estate Classification Ordinance level of assessment of 10% for class 2 properties.

In support of its contention of the correct assessment the board of review submitted four sales comparables.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The appellant submitted documentation showing the income and expenses of the subject property. The Board gives the appellant's argument little weight. In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the court stated:

[I]t is the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value".

Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes. Id. at 431.

Actual vacancy, expenses and income can be useful when shown that they are reflective of the market. Although the appellant's attorney made this argument, the appellant did not demonstrate through an expert in real estate valuation that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives this argument no weight. In addition, the Board gives the rental comparables little weight as these comparables alone are insufficient to estimate the subject's market value.

The Board finds the best evidence of market value are the appellant's comparables #2 and #6 and the board of review's comparables #1. These properties sold from June 2012 to April 2013 for prices ranging from \$94.17 to \$318.38 per square foot of building area. In comparison, the appellant's assessment reflects a market value of \$150.33 per square foot of building area which is within the range established by the comparables. Based on the record and after adjustments to the comparables, the Board finds the appellant did not demonstrate by a preponderance of the evidence that the subject was overvalued and a reduction is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
