

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mariusz & Renata Bialas
DOCKET NO.: 13-23735.001-R-1
PARCEL NO.: 02-05-303-007-0000

The parties of record before the Property Tax Appeal Board are Mariusz & Renata Bialas, the appellant(s); and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,014
IMPR.: \$35,361
TOTAL: \$41,375

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 38-year-old, two-story dwelling with 2,375 square feet of living area of frame and masonry construction. Features of the home include a full basement, a fireplace and a two-car garage. The property has a 26,730 square foot site and is located in Palatine Township, Cook County. The subject is classified as a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three suggested equity comparables with sales data on each property. The comparable properties are described as two-story, single-family dwellings of frame and masonry construction that range: in age from 34 to 46 years; in size from 2,252 to 2,728 square feet of living area; in improvement assessment from \$14.83 to \$16.64 per square foot of living area; and in price from \$112.61 to \$144.32 per square foot of living area.

In addition, the appellant submitted printouts from the Multiple Listing Service (MLS) for each of the comparable properties and a stipulation before the Board as to the subject's total assessment for lien year 2009, which is in a different general assessment period. Finally, the appellant submitted three graphs that appear to show market conditions in Illinois over a period of six years.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$41,375. The subject's assessment reflects a market value of \$411,282 or \$173.17 per square foot of living area, including land, when applying the 2013 three year median level of assessment for class 2 property of 10.06% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on three suggested equity comparables with sales data on each property. The comparable properties are described as two-story, single-family dwellings of frame and masonry construction that range: in age from 45 to 48 years; in size from 2,454 to 2,760 square feet of living area; in improvement assessment from \$15.54 to \$18.18 per square foot of living area; and in price from \$182.97 to \$192.03 per square foot of living area.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value to be appellant's comparable sales #1, #3, and the board of review's comparable sale #2. These comparables sold for prices ranging from \$112.61 to \$187.45 per square foot of living area, including land. The subject's assessment reflects a market value of \$173.17 per square foot of living area, including land, which is within the range established by the best comparable sales in this

record. Based on this evidence the Board finds a reduction in the subject's assessment is not justified.

In addition, the taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The best comparables in the record had improvement assessment of \$14.83 to \$18.18 per square foot of living area. The subject's improvement assessment of \$14.89 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
