

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vladimir Loberant  
DOCKET NO.: 13-28573.001-R-1  
PARCEL NO.: 03-09-407-062-0000

The parties of record before the Property Tax Appeal Board are Vladimir Loberant, the appellant, by attorney David C. Dunkin, of Arnstein & Lehr, LLP in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,065  
**IMPR.:** \$1,306  
**TOTAL:** \$11,371

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame exterior construction with 1,334 square feet of living area. The dwelling is approximately 33 years old. Features of the home include a concrete slab foundation, central air conditioning, a fireplace and a two-car garage. The property has a 6,494 square foot site and is located in Wheeling, Wheeling Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance

The appellant's appeal is based on overvaluation. In support of the overvaluation argument, the appellant submitted six comparable sales located within 500 feet from the subject property. The comparables consist of two-story dwellings of frame exterior construction that range in age from 30 to 34 years old. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 1,335 to 1,377 square feet of living

area and are situated on sites ranging in size from 3,598 to 5,028 square feet of land area. The comparables sold from November 2011 to July 2013 for prices of \$75,000 to \$130,000 or \$54.66 to \$94.75 per square foot of living area including land. Based on this evidence, the appellant requested the total assessment be reduced to \$11,371.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$15,731. The subject's assessment reflects a market value of \$157,310 or \$117.92 per square foot of living area, land included, when applying the 10% level of assessment for class 2 residential property pursuant to the Cook County Real Property Assessment Classification Ordinance. In support of the subject's assessment, the board of review submitted information on four sales comparables located within the same block or .25 of a mile from the subject property. The comparables consists of two-story dwellings of frame exterior construction that range in age from 31 to 41 years old. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 1,302 to 1,476 square feet of living area and are situated on sites ranging in size from 1,611 to 4,129 square feet of land area. These comparables sold from March 2010 to October 2013 for prices ranging from \$169,500 to \$188,500 or from \$121.95 to \$134.16 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The parties submitted 10 comparable sales for the Board's consideration. The Board gave less weight to the appellant's comparable #1 and the board of review's comparables #1, #3 and #4 due to their older sale date. The Board also gave less weight to the board of review's comparable #2 due to its full unfinished basement when compared to the subject property. The Board finds the best evidence of market value in the record to be the appellant's remaining comparables. These comparables are more similar in location, age, design, exterior construction and features. These comparables sold for prices ranging from \$75,000 to \$125,000 or from \$54.66 to \$93.63 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$157,310 or \$117.92 per square foot of living area including land, which falls above the range of the overall market value and above the range of the price per square foot of the most similar comparables contained in this record. Based on this record the Board finds the subject's assessment is not reflective of market value and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
