

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: George Liakopoulos
DOCKET NO.: 13-29794.001-R-1
PARCEL NO.: 17-19-415-049-0000

The parties of record before the Property Tax Appeal Board are George Liakopoulos, the appellant, by attorney George N. Reveliotis, of Reveliotis Law, P.C. in Park Ridge; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,627
IMPR.: \$23,167
TOTAL: \$33,794

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of two improvements situated on one parcel. Dwelling #1 is a two-story multi-family improvement of frame exterior construction. Dwelling #1 is approximately 130 years old and has 2,000 square feet of living area. Features of the building include a concrete slab foundation. Dwelling #2 is a two-story multi-family improvement of frame exterior construction. Dwelling #2 is approximately 130 years old and has 2,016 square feet of living area. Features of the building include a concrete slab foundation. The subject's property has a 5,904 square foot site and is located in Chicago, West Chicago Township, Cook County. The subjects are classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The appellant stated that dwelling #1 and dwelling #2 had an improvement assessment of \$33,794 or \$11.49 per square

foot of living area; however, that calculation was arrived at by dividing the combined improvement assessment for both of the subjects by the living area of dwelling #2. In support of this argument the appellant submitted information on four equity comparables for dwelling #1 and #2. The comparables are improved with two-story or three-story multi-family dwellings of frame or masonry exterior construction that are 129 or 134 years old. The dwellings range in size from 1,848 to 2,200 square feet of living area and have improvement assessments ranging from \$14,945 to \$21,705 or from \$7.05 to \$8.58 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$26,340.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$33,794. Dwelling #1 has an improvement assessment of \$10,745 or \$5.37 per square foot of living area. Dwelling #2 has an improvement assessment of \$12,422 or \$6.16 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables for dwelling #1 and the same four equity comparables for dwelling #2. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of eight suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their lack of descriptive information about the improvements which prevents a meaningful analysis to determine the similarities of the comparables to the subject property. Additionally, the appellant's comparables had improvement assessments that ranged from \$7.05 to \$8.58 per square foot of living area which falls above dwelling #1's and dwelling #2's price per square foot of living area.

The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables were more similar when compared to the subject in location, age, dwelling size, design, exterior construction and features. These comparables had improvement assessments that ranged from \$7.19 to \$8.03 per square foot of living area. Dwelling #1's improvement assessment of \$5.37 and dwelling #2's improvement assessment of \$6.16 per square foot of living area falls below the range established by the most similar comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
