

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kevin Ford
DOCKET NO.: 13-30503.001-R-1
PARCEL NO.: 29-03-429-021-0000

The parties of record before the Property Tax Appeal Board are Kevin Ford, the appellant(s), by attorney Nancy Pina-Campos, Attorney at Law in Broadview; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,547
IMPR.: \$2,253
TOTAL: \$3,800

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 4,760 square foot parcel of land improved with a 41-year old, multi-level, frame and masonry, single-family dwelling containing 1,136 square feet of building area. The property is located in Thornton Township, Cook County and is a class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of the overvaluation argument the appellant submitted a copy of the multiple-listing database printout (MLS) and the settlement statement disclosing that the property was purchased in March 2012 for a sale price of \$38,000 or \$33.45 per square foot of building area. The appellant requested an assessment of 10% of the sale price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$10,578. The subject's assessment reflects a market value of \$157,810 or \$138.92 per square foot of building area using the Cook County Ordinance Real Estate Classification Ordinance level of assessment for class 2 property of 10%.

In support of the assessment the board of review submitted evidence on four sale comparables. These properties sold from September 2012 to November 2013 for prices ranging from \$81.97 to \$126.20 per square foot of building area.

In written rebuttal, the appellant submitted a brief asserting that the board of review's evidence was insufficient.

At hearing, the appellant's attorney called Mr. Rick Robin as a witness. Mr. Robin testified that he has an engineering degree and license. He testified that he is a general contractor.

On voir dire by the board of review, Mr. Robin testified that his highest level of education was a bachelor's of science in electrical engineering. He testified he is not a licensed appraiser and has never been one. He acknowledged that he is the sole owner of Pro Tax Appeal LLC which is incorporated in the State of Illinois. Mr. Robin testified that he retains attorneys on an as needed basis as independent contractors and are paid a monthly flat fee.

Mr. Robin refused to answer if the Pro Tax Appeal receives a contingency fee if the appellant receives a favorable decision by the board of review or the Property Tax Appeal Board. He denied that the attorneys receive a contingency fee. Mr. Robin testified that the client signs the engagement letter allowing Pro Tax Appeal to represent the taxpayer. He testified that Pro Tax Appeal gathers the information in the grid submitted by the appellant. Mr. Robin testified that it is an automated system that generates the information. He testified that he enters the property identification number into the system and the computer generates the information. He testified he developed the automated system and software. Mr. Robin testified that the computer system determines the basis of the appeal. He testified that everything is done by automation.

The board of review subsequently asked further foundational questions. Mr. Robin acknowledged that the data sources for the comparables grid are listed at the bottom of the grid page and are the assessor, MLS, Realist, Marshall & Swift, and IRPAM. He testified that the sales information is combined from a number of sources and that one of the sources is the MLS (multiple listing service database). He testified that he is an authorized MLS user as a personal assistant through Three Rivers Realtor Association. Mr. Robin refused to answer what realtor he was authorized through.

Mr. Isreal Smith of the board of review than asked that the record reflect that the witness made a profane hand gesture to him while the administrative law judge was looking down at her notes. In regards to the appellant's appeal, the appellant's attorney rested on the evidence previously submitted.

The board of review's representative, Isreal Smith, testified that the comparables submitted support the subject's assessment. Mr. Smith testified that these sales are similar to the subject and show that the subject's sale is below market.

In rebuttal, the appellant's attorney argued that the appellant's appeal is based on the sale of the subject and that any consideration to the board of review's sales comparables violates the appellant's due process and that this evidence is irrelevant.

Conclusion of Law

The appellants contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c).

The Board finds the best evidence of market value to be the purchase of the subject property in March 2012 for a price of \$38,000. The appellant provided evidence demonstrating the sale of the subject and the board of review did not refute the arm's length nature of the sale or assert that the sale was a compulsory sale below market. Therefore, the Board finds the subject had a market value of \$38,000. Since the market value of this parcel has been established, the Cook County Real Estate Classification Ordinance level of assessment for Class 2 property of 10% will apply and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
