

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chicago Title and Trust Company Trust #1085709
DOCKET NO.: 13-35829.001-R-1
PARCEL NO.: 17-04-211-017-0000

The parties of record before the Property Tax Appeal Board are Trust #1085709 Chicago Title and Trust Company, the appellant, by attorney David R. Bass, of Field and Goldberg, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$47,520
IMPR.: \$253,899
TOTAL: \$301,419

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry construction with 5,808 square feet of living area. The dwelling is 104 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces and a two-car garage. The property has a 3,960 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-09 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four equity comparables that were located in the same neighborhood code as the subject property. The comparables were two-story or three-story dwellings of masonry construction that ranged in size from 5,248 to 6,505 square feet of living area. The comparables had other features with varying degrees of similarity to the

subject. The comparables had improvement assessments ranging from \$201,028 to \$246,627 or from \$36.44 to \$40.64 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$301,419. The subject property has an improvement assessment of \$253,899 or \$43.72 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on two equity comparables that were located in the same neighborhood code and the same street as the subject property. The comparables were three-story dwellings of masonry construction that contained 5,288 or 5,305 square feet of living area. The comparables had other features with varying degrees of similarity to the subject. The comparables had improvement assessments of \$246,197 and \$261,866 or \$46.41 and \$49.52 per square foot of living area, respectively.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #1, #2 and #4, as well as the board of review's comparables. These comparables were most similar to the subject in location, age, size and features. These comparables had improvement assessments that ranged from \$201,028 to \$261,866 or from \$37.75 to \$49.52 per square foot of living area. The subject's improvement assessment of \$253,899 or \$43.72 per square foot of living area falls within the range established by the best comparables in this record. The Board gave less weight to the appellant's comparable #3 due to its considerably larger size, when compared to the subject. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
