

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Michael Schmidt
DOCKET NO.: 13-36058.001-R-1
PARCEL NO.: 05-31-319-030-0000

The parties of record before the Property Tax Appeal Board are Michael Schmidt, the appellant, by attorney Arnold G. Siegel, of Siegel & Callahan, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$15,201
IMPR.: \$66,799
TOTAL: \$82,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2013 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry construction with 3,897 square feet of living area. The dwelling is approximately 9 years old. Features of the home include a full unfinished basement, central air conditioning, two fireplaces and a three-car garage.¹ The property has a 19,615 square foot site and is located in Glenview, New Trier Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted a residential appraisal estimating the subject property had a market value of \$820,000 as of January 1, 2013. The appellant's appraisal was completed using the sales

comparison approach in estimating a market value for the subject property. The appellant's appraisers selected three comparable properties that were all located in Glenview, like the subject property. The comparables were described as "traditional" style two-story dwellings ranging in size from 3,072 to 3,702 square feet of living area. The comparables range in age from 12 to 71 years old. The comparables had other features with varying degrees of similarity to the subject. The comparables had sale dates ranging from April 2011 to August 2012 for prices ranging from \$676,000 to \$795,000 or from \$190.58 to \$255.53 per square foot of living area, including land. The appraisers adjusted the comparables for differences from the subject to arrive at adjusted prices ranging from \$769,100 to \$835,400.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$98,947. The subject's assessment reflects a market value of \$989,470 or \$253.91 per square foot of living area, land included, when using the level of assessment for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of its contention of the correct assessment the board of review submitted a grid analysis containing information on four comparable properties, one of which was a comparable to demonstrate that the subject was being equitably assessed. The comparables were located in Glencoe or Wilmette, unlike the subject property. The comparables were improved with two-story dwellings ranging from 3,429 to 4,076 square feet of living area. The comparables ranged in age from 6 to 13 years old. The comparables had other features with varying degrees of similarity to the subject. Three comparables had sale dates ranging from January 2010 to June 2011 for prices ranging from \$1,140,000 to \$1,625,000 or from \$294.80 to \$473.90 per square foot of living area, including land.

The appellant submitted a rebuttal critiquing the board of review's submission.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appraisal submitted by the appellant estimating the subject had a market value of \$820,000 as of January 1, 2013. The subject's assessment reflects a market value of \$989,470 or \$253.91, including land, which is above the appraised value. The Board gave less weight to the board of review's comparables due to their different location and/or date of sale when compared to the subject. The Board also gave less weight to the board of review's equity comparable #4 as the evidence is not responsive to the overvaluation argument brought by the appellant.

Based on this evidence the Board finds a reduction in the subject's assessment commensurate with the appellant's request is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
