

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Susan Smith
DOCKET NO.: 14-00701.001-R-1
PARCEL NO.: 15-09-314-002

The parties of record before the Property Tax Appeal Board are Susan Smith, the appellant, by attorney David Lavin, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,509
IMPR.: \$147,112
TOTAL: \$176,621

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 3,461 square feet of living area. The dwelling was constructed in 1999. Features of the home include a full basement with finished area, central air conditioning and a 484 square foot detached garage. The property has an 8,276 square foot site and is located in Vernon Hills Vernon Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within 0.21 of a mile from the subject property. The comparables are improved with two-story single family dwellings and have varying degrees of similarity when compared to the subject. The dwellings each contain 3,476 square feet of living area and have

improvement assessments ranging from \$125,976 to \$132,200 or from \$36.24 to \$38.03 per square foot of living area. The appellant requested the total assessment be reduced to \$158,281.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$176,621. The subject property has an improvement assessment of \$147,112 or \$42.51 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within 0.25 of a mile from the subject property. The comparables are improved with two-story single family dwellings and have varying degrees of similarity when compared to the subject. The dwellings range in size from 3,312 to 3,475 square feet of living area and have improvement assessments ranging from \$142,240 to \$145,371 or from \$40.93 to \$43.51 per square foot of living area. The board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to these comparables having a partial unfinished basement unlike the subject's full partially finished basement. The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables have varying degrees of similarity when compared to the subject in location, age, dwelling size and features. The comparables had improvement assessments that ranged from \$142,240 to \$145,371 or from \$40.93 to \$43.51 per square foot of living area. The subject's improvement assessment of \$147,112 or \$42.51 per square foot of living area falls within the range established by the best comparables in this record on a per square foot basis. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
