

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Glen Bernfield  
DOCKET NO.: 14-01250.001-R-1  
PARCEL NO.: 16-15-309-060

The parties of record before the Property Tax Appeal Board are Glen Bernfield, the appellant, by attorney James P. Regan, of Fisk Kart Katz and Regan, Ltd. in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$116,736  
**IMPR.:** \$148,990  
**TOTAL:** \$265,726

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a one-story dwelling of stucco exterior construction with 2,732 square feet of living area. The dwelling was constructed in 2000. Features of the home include a partial basement with finished area, central air conditioning and a two-car garage that contains 504 square feet of building area. The property has a 4,964 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on eight equity comparables located in the same neighborhood and from .06 to .14 of a mile from the subject property. The comparables are improved with one-story single family dwellings and have

varying degrees of similarity when compared to the subject.<sup>1</sup> The dwellings range in size from 2,412 to 4,134 square feet of living area and have improvement assessments ranging from \$91,417 to \$195,200 or from \$36.20 to \$47.22 per square foot of living area. The appellant requested the total assessment be reduced to \$233,228.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$265,726. The subject property has an improvement assessment of \$148,990 or \$54.54 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood and from .03 to .08 of a mile from the subject property. The comparables are improved with one-story single family dwellings and have varying degrees of similarity when compared to the subject. The dwellings range in size from 2,481 to 2,967 square feet of living area and have improvement assessments ranging from \$135,293 to \$170,931 or from \$54.53 to \$57.61 per square foot of living area. The board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted 12 equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #8 due to its considerably larger dwelling size when compared to the subject. The Board finds the best evidence of assessment equity to be the remaining 11 comparables. These comparables have varying degrees of similarity when compared to the subject in location, age, dwelling size, exterior construction and features. These comparables had improvement assessments that ranged from \$91,417 to \$170,931 or from \$36.20 to \$57.61 per square foot of living area. The subject's improvement assessment of \$148,990 or \$54.54 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

<sup>1</sup> The appellant did not disclose the story height for the comparables. This information was obtained from the property record cards submitted by the board of review.
