

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Dr. Stanton Noskin  
DOCKET NO.: 14-01534.001-R-1  
PARCEL NO.: 16-20-403-032

The parties of record before the Property Tax Appeal Board are Dr. Stanton Noskin, the appellant, by attorney Nora Doherty of Steven B. Pearlman & Associates, in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds No Change in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$ 55,497  
**IMPR.:** \$132,168  
**TOTAL:** \$187,665

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story brick dwelling that has 2,989 square feet of living area. The dwelling was constructed in 1968. Features include a full unfinished basement, central air conditioning, a fireplace and a 483 square foot attached garage. The subject property is located in West Deerfield Township, Lake County, Illinois.

The appellant submitted evidence before the Property Tax Appeal Board claiming assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted information on five assessment comparables located from .14 to .47 of a mile from the subject. The comparables consist of a one-story and four, two-story dwellings of brick or frame exterior construction that were built from 1965 to 1971. Features had varying degrees of similarity when compared to the subject. The dwellings range in size from 2,620 to 3,472 square feet of living area and have improvement assessments ranging from \$89,490 to \$105,044 or from \$30.25 to

\$35.60 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject property of \$187,665. The subject property has an improvement assessment of \$132,168 or \$44.22 per square foot of living area. In support of the subject's assessment, the board of review submitted an equity analysis of four comparables located from .07 to .20 of a mile from the subject. The comparables consist of two-story dwellings of brick exterior construction that were built in 1967 or 1968. Features had varying degrees of similarity when compared to the subject. The dwellings range in size from 2,839 to 3,261 square feet of living area and have improvement assessments ranging from \$130,153 to \$147,442 or from \$43.33 to \$46.48 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant failed to meet this burden of proof and no reduction in the subject's assessment is warranted.

The record contains nine assessment comparables for the Board's consideration. The Board gave less weight to comparables #1, #2, #3 and #5 submitted by the appellant. Comparables # 1 and #2 have finished basements, unlike the subject; comparable #3 is a dissimilar one-story dwelling; and comparable #5 is larger in dwelling size when compared to the subject. The Board also gave less weight to comparable #3 submitted by the board of review due to its finished basement, superior to the subject. The Board finds the remaining four comparables are more similar when compared to the subject in location, design, age, dwelling size and features. These comparables have improvement assessments ranging from \$92,344 to \$147,442 or from \$35.25 to \$46.48 per square foot of living area. The subject property has an improvement assessment of \$132,168 or \$44.22 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record. After considering adjustments to the comparables for any differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Therefore, no reduction in the subject's improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
