

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Christina Webb
DOCKET NO.: 14-03063.001-R-1
PARCEL NO.: 13-34-102-007

The parties of record before the Property Tax Appeal Board are Christina Webb, the appellant; and the McHenry County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **McHenry** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,690
IMPR.: \$73,415
TOTAL: \$86,105

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the McHenry County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction that has 3,099 square feet of living area. The dwelling was built in 2007. Features include an unfinished basement, central air conditioning and a 699 square foot attached garage. The subject property is located in Dorr Township, McHenry County, Illinois.

The appellant contends assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted four assessment comparables located in close proximity to the subject. The comparables consist of two-story dwellings of frame exterior construction that were 3 to 9 years old. Features had varying degrees of similarity when compared to the subject. The dwellings range in size from 2,735 to 2,951 square feet of living area. The comparables have improvement assessments ranging from \$55,111 to \$68,208 or from \$20.15 to \$23.76 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$86,105. The subject property has an improvement assessment of \$73,415 or \$23.69 per square foot of living area. In support of the subject's assessment, the board of review submitted a grid analysis of the appellant's comparables and five additional assessment comparables. The evidence was prepared by the township assessor. The five additional comparables consist of two-story dwellings of frame or vinyl exterior construction that were built from 2007 to 2012. Features had varying degrees of similarity when compared to the subject. The dwellings range in size from 3,067 to 3,159 square feet of living area. The comparables have improvement assessments ranging from \$69,259 to \$78,996 or from \$22.02 to \$25.52 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer argued assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e); Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof.

The parties submitted nine assessment comparables for the Board's consideration. The Board gave less weight to comparables #2 and #4 submitted by the appellant due to their slightly smaller dwelling size when compared to the subject. Additionally, comparable #4 is newer in age when compared to the subject. The Board gave less weight to comparable #5 submitted by the board of review due to its newer age when compared to the subject. The Board finds the remaining six comparables are most similar when compared to the subject in location, design, age, dwelling size and features. These comparables have improvement assessments ranging from \$62,298 to \$75,629 or from \$21.14 to \$24.66 per square foot of living area. The subject property has an improvement assessment of \$73,415 or \$23.69 per square foot of living area, which falls within the range established by the most similar assessment comparables contained in the record. After considering any necessary adjustments to the comparables for differences to the subject, the Board finds the subject's improvement assessment is supported and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
