

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ryan & Jillian Molis
DOCKET NO.: 14-03539.001-R-1
PARCEL NO.: 09-10-412-005

The parties of record before the Property Tax Appeal Board are Ryan & Jillian Molis, the appellants, by attorney Richard J. Caldarazzo, of Mar Cal Law, P.C. in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$60,380
IMPR.: \$309,980
TOTAL: \$370,360

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of part one-story and part two story dwelling of frame and masonry exterior construction with 4,201 square feet of living area. The dwelling was constructed in 2006. Features of the home include a full finished basement, central air conditioning, a fireplace, a 441 attached garage and a 231 detached garage. The property has a 10,934 square foot site and is located in Clarendon Hills, Downers Grove Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within four blocks from the subject property. The comparables consist of part one-story and part two-story dwellings of frame and masonry exterior construction that range from 3 to 18 years old. Features had varying degrees of similarity when compared to the subject. The dwellings ranged in size from 3,861 to 4,395 square feet of living area and have improvement assessments ranging from

\$189,830 to \$279,190 or from \$49.17 to \$67.85 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$307,441.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$370,360. The subject property has an improvement assessment of \$309,980 or \$73.79 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same neighborhood as the subject property. The comparables are improved with part one-story and part two-story dwellings of frame and masonry exterior construction that were built from 2000 to 2008. Features had varying degrees of similarity when compared to the subject. The dwellings range in size from 3,851 to 4,012 square feet of living area and have improvement assessments ranging from \$286,020 to \$317,230 or from \$74.27 to \$74.80 per square foot of living area. Based on this evidence, the board of review requested confirmation

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board gave little weight to the appellant's comparable #1 due to its older age when compared to the subject. The Board also gave less weight to the appellant's comparables #2 and #3 based on their lack of a finished basement when compared to the subject's full finished basement. The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables were most similar when compared to the subject in location, age, design, dwelling size, and features. These comparables had improvement assessments that ranged from \$74.27 to \$74.80 per square foot of living area. The subject's improvement assessment of \$73.79 per square foot of living area falls below the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
