

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jason Cione
DOCKET NO.: 14-03550.001-R-1
PARCEL NO.: 06-25-404-010

The parties of record before the Property Tax Appeal Board are Jason Cione, the appellant, by attorney Richard J. Caldarazzo, of Mar Cal Law, P.C. in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$42,110
IMPR.: \$128,320
TOTAL: \$170,430

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a one and one half-story dwelling of frame and masonry exterior construction with 3,024 square feet of living area. The dwelling was constructed in 1965. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has a 21,978 square foot site and is located in Oak Brook, York Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within five blocks from the subject property. The comparables are improved with 2 two-story and one split-level dwelling of frame and masonry exterior construction that were constructed from 1966 to 1969. These comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 3,069 to 3,886 square feet of living area and have improvement

assessments ranging from \$58,290 to \$116,230 or from \$18.99 to \$36.42 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$127,810.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$170,430. The subject property has an improvement assessment of \$128,320 or \$42.43 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood as the subject property. The comparables are improved with a one and one-half story dwellings of frame and masonry exterior construction that were constructed from 1965 to 1967. The comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 2,705 to 3,158 square feet of living area and have improvement assessments ranging from \$131,900 to \$179,090 or \$47.16 to \$57.38 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of seven suggested equity comparables for the Board's consideration. The Board gave little weight to the appellant's comparables due to the differences in dwelling style. The Board finds the best evidence of assessment equity to be the board of review's comparables. These comparables are similar when compared to the subject in location, age, design, exterior construction and features. These comparables had improvement assessments that ranged from \$47.16 to \$57.38 per square foot of living area. The subject's improvement assessment of \$42.43 per square foot of living area falls below the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
