

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Todd Molis
DOCKET NO.: 14-03556.001-R-1
PARCEL NO.: 09-23-204-021

The parties of record before the Property Tax Appeal Board are Todd Molis, the appellant, by attorney Richard J. Caldarazzo, of Mar Cal Law, P.C. in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$32,230
IMPR.: \$53,500
TOTAL: \$85,730

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a split-level style dwelling of frame and brick exterior construction with 1,362 square feet of living area. The dwelling was constructed in 1964. Features of the home include a partial finished basement, central air conditioning, a fireplace and a 500 square foot garage. The property has a 13,536 square foot site and is located in Willowbrook, Downers Grove Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables located within three blocks from the subject property. The comparables are improved with split-level style dwellings¹ of frame and brick exterior construction that were constructed in 1964 or 1965. These

comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 1,500 to 1,674 square feet of living area and have improvement assessments ranging from \$53,150 to \$59,910 or from \$34.92 to \$36.59 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$80,949.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$85,730. The subject property has an improvement assessment of \$53,500 or \$39.28 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same neighborhood as the subject property. The comparables are improved with split-level style dwellings² of frame or frame and brick exterior construction that were constructed in 1963 or 1965. The comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 1,412 to 1,500 square feet of living area and have improvement assessments ranging from \$55,410 to \$56,670 or \$37.78 to \$39.24 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board finds the appellant's and the board of review's comparables are all similar when compared to the subject in location, age, dwelling size, design, exterior construction and features. These comparables had improvement assessments that ranged from \$34.92 to \$39.24 per square foot of living area. The subject's improvement assessment of \$39.28 per square foot of living area falls slightly above the range established by the comparables in this record. Due to economies of scale, accepted real estate valuation theory provides, all factors being equal, as the size of a property increases, its per unit value decreases. Likewise, as the size of a property decreases, its per unit value increases. Due to the subject's smaller size, the square foot value as reflected by the subject's assessment is well supported by a preponderance of the credible equity data contained in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

² Property record cards submitted by the board of review depict split-level style dwellings.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
