

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard & Michelle Gubala
DOCKET NO.: 14-03557.001-R-1
PARCEL NO.: 09-34-204-005

The parties of record before the Property Tax Appeal Board are Richard & Michelle Gubala, the appellants, by attorney Richard J. Caldarazzo, of Mar Cal Law, P.C. in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$23,940
IMPR.: \$53,720
TOTAL: \$77,660

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellants timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a split-level style dwelling¹ of brick exterior construction with 1,222 square feet of living area. The dwelling was constructed in 1967. Features of the home include a partial finished basement, central air conditioning and a 484 square foot garage. The property has a 28,500 square foot site and is located in Clarendon Hills, Downers Grove Township, DuPage County.

The appellants contend assessment inequity as the basis of the appeal. In support of this argument the appellants submitted information on three equity comparables located within five blocks from the subject property. The comparables are improved with one-story dwellings of

brick exterior construction that were constructed in 1956 and 1959². These comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 1,434 to 1,532 square feet of living area and have improvement assessments ranging from \$24,900 to \$26,240 or from \$16.43 to \$17.59 per square foot of living area. Based on this evidence, the appellants requested the total assessment be reduced to \$74,641.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$77,660. The subject property has an improvement assessment of \$23,940 or \$19.59 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same neighborhood as the subject property. The comparables are improved with split-level style dwellings³ of brick exterior construction that were constructed in 1966. The comparables had varying degrees of similarity when compared to the subject. The dwellings range in size from 1,269 to 1,421 square feet of living area and have improvement assessments ranging from \$25,500 to \$30,190 or \$19.51 to \$21.25 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellants did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board gave less weight to the appellants' comparables due to differences from the subject in style. The Board finds the board of review's comparables are more similar when compared to the subject in location, age, dwelling size, design, exterior construction and features. These comparables had improvement assessments that ranged from \$19.51 to \$21.25 per square foot of living area. The subject's improvement assessment of \$19.59 per square foot of living area falls within the range established by the most similar comparables in this record. Based on this record the Board finds the appellants did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

² The appellants' comparable #1 has a 360 square foot addition that was built in 1976.

³ Property record cards submitted by the board of review depicts split-level style dwellings
