

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patrick Brydon
DOCKET NO.: 14-03677.001-R-1
PARCEL NO.: 08-21.0-351-005

The parties of record before the Property Tax Appeal Board are Patrick Brydon, the appellant; and the St. Clair County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **St. Clair** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,087
IMPR.: \$10,913
TOTAL: \$14,000

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 1.5-story dwelling of frame construction with 1,512 square feet of living area. The dwelling was constructed in 1923. Features of the home include an unfinished basement, central air conditioning, a fireplace and a detached garage with 936 square feet of building area. The property has a 6,969 square foot site and is located in Belleville, Belleville Township, St. Clair County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted evidence disclosing the subject property was purchased on March 18, 2013 for a price of \$25,299. The seller was identified as Deutsch Bank National Trust Company. The appellant indicated that the property was sold through a Realtor and had been advertised in the Multiply Listing Service (MLS) for five months. To document the sale the appellant submitted a copy of the settlement statement and a copy of the subject's MLS listing. The listing described the subject property as a "diamond in the rough", further indicated the property was being sold "as-

is" and stated "a few things needed to bring up to code." Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$22,676. The subject's assessment reflects a market value of \$67,913 or \$44.92 per square foot of living area, land included, when using the 2014 three year average median level of assessment for St. Clair County of 33.39% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales improved with 1.5-story dwellings of frame construction that ranged in size from 1,308 to 1,707 square feet of living area. The dwellings were built from 1900 to 1949. Each comparable has an unfinished basement, central air conditioning and a garage ranging in size from 320 to 520 square feet of building area. The sales occurred from June 2013 to December 2014 for prices ranging from \$50,000 to \$82,500 or from \$29.29 to \$63.07 per square foot of living area, including land. To document the sales the board of review provided copies of the PTAX-Illinois Real Estate Transfer Declaration and a copy of the property record card for each comparable.

The board of review also submitted a copy of the PTAX-Illinois Real Estate Transfer Declaration associated with the sale of the subject property, which stated the property had been advertised for sale. The record also contained a copy of a Private Sale Deed disclosing that the Private Sales Corporation had previously transferred the subject property to Duetsche Bank National Trust Company.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the evidence in the record supports a reduction in the subject's assessment.

The evidence disclosed the subject property was purchased in March 2013 for a price of \$25,299 or \$16.73 per square foot of living area. The evidence disclosed that the property had been advertised for sale and the parties were not related. The MLS listing also indicated the subject property had some condition issues at the time of sale. The Board finds some weight should be given the sale of the subject property. The board of review provided four comparable sales that had varying degrees of similarity to the subject property. These properties also sold proximate in time to the assessment date at issue for prices ranging from \$50,000 to \$82,500 or from \$29.29 to \$63.07 per square foot of living area, including land. The subject's assessment reflects a market value of \$67,913 or \$44.92 per square foot of living area, including land, which is within the range established by the comparable sales; however, some adjustment to the comparables would be needed to account for the condition of the subject property as reflected in the MLS listing. After considering the sale of the subject property and the sales provided by the board of review, the Property Tax Appeal Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
