

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Joel Marks  
DOCKET NO.: 14-20158.001-R-1  
PARCEL NO.: 08-12-416-028-0000

The parties of record before the Property Tax Appeal Board are Joel Marks, the appellant, by attorney John S. Xydakis of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,522  
**IMPR.:** \$16,131  
**TOTAL:** \$20,653

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is described as being improved with a one-story dwelling of frame and masonry construction with 1,332 square feet of living area. The dwelling is approximately 55 years old. Features of the home include a partial basement with a recreation room, central air conditioning and a one-car attached garage. The property has a 10,050 square foot site and is located in Mount Prospect, Elk Grove Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the improvement as the basis of the appeal. In support of this argument the appellant submitted information on three equity comparables improved with one-story dwellings of masonry or frame and masonry construction that range in size from 1,107 to 1,599 square feet of living area. The dwellings are 50 or 58 years old. Each comparable has a basement, two comparables have central air conditioning and

two comparables have fireplaces. Photographs of the comparables depict two as having garages. These properties have improvement assessments that range from \$9,410 to \$15,685 or from \$8.32 to \$9.81 per square foot of living area. The appellant requested the subject's improvement assessment be reduced to \$11,322.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$20,653. The subject property has an improvement assessment of \$16,131 or \$12.11 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables improved with one-story dwellings that had either 1,351 or 1,377 square feet of living area. The dwellings were either 59 or 60 years old. Three comparables have unfinished basements, two comparable have central air conditioning, each comparable has one fireplace and each comparable has a one-car garage. These properties had improvement assessments ranging from \$17,181 to \$20,174 or from \$12.48 to \$14.65 per square foot of living area.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparable #1 and board of review comparables #1 through #3. These comparables were similar to the subject in size, age and relative features with improvement assessments that ranged from \$8.32 to \$14.46 per square foot of living area. The subject's improvement assessment of \$12.11 per square foot of living area falls within the range established by the best comparables in this record. Less weight was given appellant's comparables #2 and #3 due to differences from the subject in size. Less weight was given board of review comparable #4 as this home did not have a basement while the subject dwelling has a partial finished basement. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
