

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Day
DOCKET NO.: 14-21145.001-R-1
PARCEL NO.: 09-18-403-034-0000

The parties of record before the Property Tax Appeal Board are Paul Day, the appellant, by attorney John S. Xydakis of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,727
IMPR.: \$11,149
TOTAL: \$17,876

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame construction with 845 square feet of living area. The dwelling is approximately 73 years old. Features of the home include a partial unfinished basement and a two-car garage. The property has a 14,950 square foot site and is located in Des Plaines, Maine Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables. The comparable dwellings are from 61 to 97 years old and contain from 672 to 972 square feet of living area. The comparables have improvement assessments ranging from \$6,864 to \$10,565 or from \$10.21 to \$10.88 per square foot of living area. The appellant also submitted a map showing the location of the subject property and the comparable properties. Based on this evidence, the

appellant requested a reduction in the subject's improvement assessment to \$9,109 or \$10.78 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$17,876 was disclosed. The subject property has an improvement assessment of \$11,149 or \$13.19 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties that were described as being located on the same block as the subject property. The dwellings are 67 or 69 years old and contain from 787 to 828 square feet of living area. These properties have improvement assessments ranging from \$10,983 to \$13,909 or from \$13.96 to \$17.11 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of eight suggested comparables. The appellant's comparables received reduced weight in the Board's analysis for a variety of reasons: The appellant's comparables #1, #3 and #4 differed in foundation type; comparables #1 and #4 were significantly older than the subject; and the appellant's map disclosed that comparable #3 was not located near the subject property. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The Board finds these comparables were located in the same block as the subject and were very similar to the subject in age, living area and foundation. These comparables had improvement assessments that ranged from \$13.96 to \$17.11 per square foot of living area. The subject's improvement assessment of \$13.19 per square foot of living area falls below the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
