

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mihal Jugureanu
DOCKET NO.: 14-21364.001-R-1
PARCEL NO.: 15-25-310-027-0000

The parties of record before the Property Tax Appeal Board are Mihal Jugureanu, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,459
IMPR.: \$26,366
TOTAL: \$35,825

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is a 78 year-old, two-story dwelling of masonry construction. The parties differed as to the size of the living area. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a one-car garage. The property has a 12,613 square foot site and is located in Riverside Township, Cook County. The property is a Class 2 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five suggested equity comparables. The appellant submitted a document entitled, "Property Lookup Report" for the subject disclosing the subject contained 1,721 square feet of living area in 2014. The appellant requested a total assessment reduction to \$31,866.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$35,825. The subject property has an improvement assessment of \$26,366, or \$13.12 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four suggested equity comparables and on the November 2012 sale of the subject for the price of \$393,000. The board of review's evidence disclosed the subject contained 2,009 square feet of living area.

In rebuttal, the appellant argued that the comparables submitted as evidence by the board of review should be given diminished weight because they were dissimilar to the subject in various key property characteristics. The appellant also argued that the appellant's evidence established the subject contained 1,721 square feet in 2014 and that the subject dwelling was enlarged in 2015 to 2,009 square feet. Since the lien year of the instant appeal is 2014, the appellant argued the correct size of the living area was 1,721 square feet. The appellant reaffirmed the request for an assessment reduction.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds, for this appeal only, that the subject contained 1,721 square feet of living area in 2014. The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #5, and the board of review's comparable #2. These comparables had improvement assessments that ranged from \$12.24 to \$16.88 per square foot of living area. The subject's improvement assessment of \$15.32 per square foot of living area, based on the finding of 1,721 square feet of living area, falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and holds that a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
