

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barbara Kellert
DOCKET NO.: 14-26523.001-R-1
PARCEL NO.: 15-34-414-005-0000

The parties of record before the Property Tax Appeal Board are Barbara Kellert, the appellant, by attorney John S. Xydakis of the Law Offices of John S. Xydakis in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,460
IMPR.: \$16,441
TOTAL: \$18,901

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2014 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame construction with 958 square feet of living area. The dwelling is approximately 85 years old. Features of the home include a full unfinished basement, central air conditioning and a two and one-half car garage. The property has a 4,687 square foot site and is located in Brookfield, Proviso Township, Cook County. The subject is classified as a class 2-02 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on four equity comparables. The comparable dwellings are from 63 to 101 years old and contain from 816 to 997 square feet of living area. The comparables have improvement assessments ranging from \$11,660 to \$13,944 or from \$12.88 to \$14.29 per square foot of living area. Based on this evidence, the appellant requested a

reduction in the subject's improvement assessment to \$13,364 or \$13.95 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$18,901 was disclosed. The subject property has an improvement assessment of \$16,441 or \$17.16 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties. The dwellings are from 69 to 93 years old and contain from 725 to 924 square feet of living area. These properties have improvement assessments ranging from \$13,449 to \$15,991 or from \$17.31 to \$19.68 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

Both parties presented assessment data on a total of eight suggested comparables. All of the comparables submitted had the same assigned neighborhood and classification codes as the subject; however, the Board finds that none had central air conditioning like the subject. The Board finds the appellant's comparables #1, #3 and #4 differed from the subject in foundation and received reduced weight in the Board's analysis. Board of review comparables #2 through #4 had significantly less living area than the subject and also received reduced weight. The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and board of review comparable #1. The Board finds these comparables were very similar to the subject in location, exterior construction, age, living area and foundation. These comparables had improvement assessments of \$13.63 and \$17.31 per square foot of living area. The subject's improvement assessment of \$17.16 per square foot of living area falls between the improvement assessments of the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
